## Newkirk Opens His Campaign, Talks on City Taxes, Finances

Malone Resident, 69,  
Killed Near Hudson

Hudson, N. Y., Oct. 18 (AP)—Miss Jessie Child, 69, of Malone, was injured fatally yesterday in a collision of an automobile and a truck on Route 9, three miles north of here. Her brother, Louis Child, 74, and his wife, 72, also of Malone, were injured, not seriously. The automobile in which the Childs were riding overturned and caught fire. The truck driver was not injured. Miss Child died at Columbia Memorial Hospital.

## Kingston to Get \$192,975 Under State Aid Program

Money Will Be for Next Fiscal Year; Sum About Same as This Year

Albany, N. Y., Oct. 18 (AP)—The 62 cities in New York state will share \$69,698,361.39 in per capita aid from the state during the 1950-51 fiscal year.

New York city will receive \$50,241,789 of the total, State Comptroller Frank C. Moore announced today.

The total is approximately the same as the \$70,084,612.20 apportioned to the cities on a per capita basis during their current fiscal year. Moore said this reflected the stability of the Moore plan for apportioning state aid, which was adopted three years ago and replaced the "shared tax" system.

The estimate of per capita assistance is made annually to help cities prepare their budgets. The 1950-51 estimates, by cities, include:

| City         | Payment per Municipal Fiscal Year |
|--------------|-----------------------------------|
| Albany       | \$81,307.00                       |
| Bacon        | \$6,437.00                        |
| Glenn Cove   | \$6,501.25                        |
| Hudson       | \$75,154.50                       |
| Kingston     | \$109,975.75                      |
| Laurens      | \$6,093.00                        |
| Madison      | \$123,320.50                      |
| Mount Vernon | \$45,612.50                       |
| Newburgh     | \$115,210.25                      |
| New Rochelle | \$94,240.53                       |
| New York     | \$50,241,789.00                   |
| Poughkeepsie | \$118,949.25                      |
| Port Jervis  | \$5,440.61                        |
| Poughkeepsie | \$75,228.75                       |
| Rye          | \$6,588.75                        |
| White Plains | \$72,207.25                       |
| Yonkers      | \$62,536.50                       |

## Dr. Odell Dies

New York, Oct. 18 (AP)—Dr. George C. D. Odell, 83, historian of the theatre and professor emeritus at Columbia University, died yesterday. He joined the Columbia faculty in 1893 and retired in 1939 as professor emeritus of dramatic literature. Dr. Odell wrote a 15-volume history of the New York stage. In a single volume of 600 pages, he included as many as 27,552 references to plays and actors. The books traced the history of the stage to 1894.

## Treasury Receipts

Washington, Oct. 18 (AP)—The position of the treasury October 14: Net budget receipts, \$18,742,200; budget outlays, \$18,933,530; cash balance, \$4,798,093,535.50; customs receipts for month, \$13,514,375.24; budget receipts fiscal year July 1, \$10,150,338,806.19; budget expenditures fiscal year, \$12,446,327,374.77; budget deficit, \$2,295,487,568.58; total debt, \$25,533,625,855.42; increase over previous day, \$1,535,365.51; gold assets, \$24,603,501,377.87.

## Asks More Money

Lonely Hearts Attorney Seeks Additional \$25,000

New York, Oct. 18 (AP)—The attorney for convicted lonely hearts killers Martha Beck and Raymond Fernandez said yesterday he is seeking an extra \$25,000 fee for the "hard work" involved in their defense.

Originally scheduled to die in the electric chair at Sing Sing Prison this week, Mrs. Beck and Fernandez are awaiting the outcome of an appeal. Their attorney, Herbert E. Rosenberg, said he expected the appeal to be heard next February. Meanwhile, he asserted, he will file with Nassau county officials a request for the usual \$15,000 fee for a court-appointed counsel in a murder case, plus an extra \$25,000 fee.

## 15 Billions To Be Given To Services

Thus Military Defenses at Home, Abroad Will Get More Than \$17,000,000,000

## Air Force Included

Combat Groups to Total 58, Ten More Than Asked by President

Washington, Oct. 18 (AP)—Final Senate agreement to give the Air Force enough money for 58 combat groups shook loose a \$15,585,863,498 appropriation for the armed services today.

In this and two other bills, the lawmakers mirrored their deep distrust of Communist Russia by planning to spend over \$17,000,000,000 for military defenses at home and across the seas.

Senate and House committees reached agreement late yesterday to pour these billions into the greatest peacetime military spending program this nation ever has undertaken in a single year.

Included in the total is \$1,314,010,000 for nations lined up with the United States in the cold war against Russia—the bulk of it to western Europe.

Also, \$157,611,700 is earmarked for military construction in Alaska and on the Pacific Island of Okinawa.

A \$50,000,000 item provides for the start of construction on a radar screen to guard the United States from enemy air attack. The votes which will send the money bills to the White House are expected to be a mere formality.

The size 58 air force calls for ten more groups than President Truman had requested.

## Victory for House

This was a victory for the House over the Senate which had fought for a 48-group force. The Senate conferees finally capitulated in conference last night to the unbudging House demands for the expanded air force. About 400 combat planes of all types could be added with the extra money provided.

Senator Lucas of Illinois, Democratic floor leader, said there will be no organized fight against the military appropriations bill when it reaches the Senate.

Some senators have said that since Mr. Truman doesn't want the 58-group air force he may withhold the money for the extra ten groups. Senator Gordon (R-Ore.) refused to sign the agreement to expand the air force. "I just couldn't go along with the arm-chair strategists," he said.

A breakdown of the money totals shows this distribution:

- (1) \$4,360,644,298 for the army
- (2) \$4,928,928,200 for the navy
- (3) \$6,081,141,000 for the air force
- (4) \$4,088,386,000 in cash and \$1,992,755,000 in contract authority.

(4) Funds for guided missile research salaries and for administration of the military establishment. The precise amounts are not yet available.

(5) \$157,611,700 for the Alaska-Okinawa construction. The Alaska money will be used largely to build housing for military personnel stationed there. The Okinawa funds are to rebuild installations damaged in a recent hurricane.

(6) \$1,000,000,000 for the North Atlantic Pact nations, divided half in cash and half contract authority. In addition to this, the nations will receive \$450,000,000 worth of surplus U. S. arms.

The bulk of the aid will become available as soon as President Truman approves the Atlantic defense committee's plans for fighting the North Atlantic. This is expected in 60 days.

- (2) \$211,380,000 for Greece and Turkey.
- (3) \$27,640,000 for Iran, Korea and the Philippines.
- (4) \$75,000,000 for the China area.

The foreign arms aid also has been voted by the House in the same amount approved by the Senate. There is no dispute here. The supplemental bill containing this aid must go to a Senate-House conference, however, because the two Houses differed on money totals for other appropriations.

## Asks \$3,000 Monthly

Los Angeles, Oct. 18 (AP)—Carol Ann Beery, 18-year-old adopted daughter of the late Wallace Beery, wants \$3,000 a month to study dramatics in New York. The award was approved last month, but was set aside at the request of the \$2,000,000 estate's executors, Noah Beery Jr., the actor's nephew, and Phil Beery, his manager. Yesterday they told the court an allowance of \$833.33 monthly should be sufficient. The court took the matter under submission.

# State Stakes Out Sections Of B'way Crossing Area

New Tumor Clinic, Laboratory Merge as One Structure

Ulster County's new Tumor Clinic was planned architecturally so that it appears to be a part of the Kingston Laboratory building, which was completed several years ago. The Tumor Clinic is at the right. The architect's drawing shows the features of design and

general character which blend to make the two buildings look like a single structure. Both entrances, windows and other details are identical in design. In addition there is interior access from the laboratory to the clinic.

## Boy, 7, Is Victim Of Rope and His Own Imagination

Henry Bunce Was Playing 'Airplane Pilot' in Yard of Home; in Hospital

A boyish imagination and a piece of rope nearly brought fatal results to Henry Bunce, 7, son of Mr. and Mrs. Henry W. Bunce, 397 Foxhall avenue, late yesterday afternoon.

The boy was playing "airplane pilot," with the rope and a tree limb in the yard of his home with the rope looped about his neck when he slipped from the limb and dangled with his feet almost touching the ground, his mother said today.

Mrs. Bunce, her sister and neighbors rushed to release the boy and he was taken to Kingston Hospital following the arrival of a doctor at the Bunce home. His condition was reported as "slightly improved" at the hospital today.

Officers Thomas McGrane and Kenneth Stratton were dispatched to the Bunce home following an emergency call to police headquarters at 5:34 p. m., and the doctor was there when they arrived.

The boy was playing "pilot like my uncle Jim," with the rope at first tied around his waist as his sister Betty Ann, 10, was raking leaves in the yard near him.

After several descents from the limb with the rope tied about his waist, his sister said, he decided "this is no fun," and placed the rope about his neck and the mishap occurred in an attempt to lower himself from the limb in this fashion.

Betty Ann, meanwhile, had sensed the danger of the new venture, her mother said, and went to the house to report the incident.

Mrs. Bunce called to her sister, Mary, and in the next instant they discovered the boy's plight.

Mrs. Bunce said that when she arrived to unfasten the rope, her son was hanging from the limb and one toe was barely touching the ground. Mrs. Peter Fabiano, a neighbor, assisted in getting

## New Vaccine May Prevent High Blood Pressure Cases

By HOWARD W. BLAKESLEE (A.P. Science Editor)

Chicago, Oct. 18 (AP)—A chance that a vaccine may be found to prevent high blood pressure is seen at the University of Illinois College of Medicine.

This is a new horizon in blood pressure, coming from about ten years' experiments.

The work is in the Department of Physiology under direction of Dr. G. E. Wukerlin. Assisting are Doctors E. A. Ohler, Roger Sovy, J. M. Kiely, J. P. Kiely, R. O. Burns, Jr., Bess G. Osgood, Lionel Schour and E. W. Hawthorne.

Money has been given by the

## Program Announced For Opening Rites At New Tumor Clinic

Ulster Board of Supervisors to Present \$450,000 Facilities to Area Residents Through County Board of Health; Public Inspection to Be Held

Harry Snyder, chairman of the Post-War Planning Committee of the Ulster County Board of Supervisors, today announced the program arranged for the official opening and dedication of the Ulster County Tumor Clinic on Thursday, at 2:30 p. m., at the Tumor Clinic building.

The new clinic, for which construction and operation was voted by the Ulster County Board of Supervisors in 1947, represents a cost of \$450,000, including equipment. Approximately one-third of this will be paid from federal funds through an allocation of the State Hospital Planning Commission.

Snyder urges all Ulster county citizens to be present for this memorable occasion and to inspect the Tumor Clinic following the opening ceremony. This Tumor

Clinic and its facilities were made possible by the people of Ulster county through the Board of Supervisors to give adequate care to the potential and actual cancer patients and to provide opportunities for the physicians to utilize modern facilities in diagnosis, therapy and research in the study of cancer and other allied diseases.

In the dedication ceremony the Board of Supervisors will officially place the direction of the Tumor Clinic and facilities under the guidance of the Ulster County Board of Health, with the charge that its facilities be used to the best interest of the people of Ulster county.

The program follows: Master of ceremonies, Frederick H. Stang, county attorney. Invocation, The Right Rev. Martin J. Drury, member, Ulster County Board of Health.

Greetings, Oscar V. Newkirk, mayor, City of Kingston.

Introduction of prominent visitors and by people: Dr. Rhodes, Memorial Hospital, New York city, Representative of the American Cancer Society; Mrs. Harry P. VanWagoner, County Commander of the American Cancer Society; Rabbi Herbert I. Bloom; Dr. Morton L. Levin, Assistant Commissioner for Medical Services, New York State Department; Dr. V. A. VanVolkenburgh, Assistant Commissioner for Local Health Services, New York State Health Department; Dr. George James, Assistant Director Bureau of Epidemiology and Communicable Diseases, New York State Health Department; Dr. Robert L. Vought, Regional Health Director, New York State Health Department; Dr. Robert H. Broad, Ulster County Health Commissioner;

Dr. H. L. Bibby, presents check to Dr. J. S. Taylor, Director, to provide treatment.

The Kingston Lions Club on Monday afternoon presented a check for \$500 to the Ulster County Tumor Clinic Foundation as a memorial to Louis B. Stokette, former Kingston civic leader and member of the Lions Club who died of cancer on February 2 of this year.

The presentation was made on behalf of the Lions Club by Dr. Henry Lambert Bibby, chairman of the club's health and welfare committee. The donation was accepted by Dr. J. Spottiswood Taylor, director of the clinic. Also present when the check was presented at 2:30 p. m. Monday at the tumor clinic was Lawrence J. McAvary, chairman of the Lions' publicity committee, Theodore R. Lee, Lions Club president, was unable to attend.

The Tumor Clinic Foundation is an incorporated organization recently formed to enable the clinic to receive donations. These donations, according to Dr. Taylor, will be used for such purposes as providing treatment for those who while not qualified to receive state or county welfare aid, are nevertheless unable to stand the expense of treatment themselves.

Died in February

The gift was a memorial to Louis B. Stokette, an active member of the Lions Club, who died February 2, 1949, at the age of 37. At the time he was taken ill he was manager of Radio Station WKNY and president of the Kingston Chamber of Commerce.

He was a graduate of Kingston High School, class of 1929. Following graduation he entered the newspaper field, working on the Germantown Post. In 1935 he became publisher and editor of the Catskill Mountain Star, which he sold in 1936 and became connected with the editorial department of the Kingston Daily Leader. After five years with the Leader, he joined the staff of Station WKNY in 1941 and was manager of the station when illness incapacitated him last year.

One of the most civic-minded young businessmen of the city, he worked unflinchingly for the welfare and progress of the city and community. Aside from his connection with the Chamber of Commerce, he worked with many other civic committees and supported the Kingston-Rhinecliff bridge project and the Broadway crossing elimination. He was a member of the Central Business Men's Association and the Kingston Lions Club. He was a member of the First Dutch Reformed Church.

Two Plants Are Idle

Camden, N. J., Oct. 18 (AP)—Suspension of a 12-year man at the Campbell Soup Co., has shut down two plants here and idled 3,000 workers. Two thousand quit work yesterday although officials of the C.I.O.'s Local 80, Food, Tobacco,

## Lions Club Gives \$500 to Clinic as Stokette Memorial

Dr. H. L. Bibby Presents Check to Dr. J. S. Taylor, Director, to Provide Treatment

Work Will Start in Two Weeks Time

Lipsett Company Sets Up Arrangements for Temporary Office in City

Other Work Gains

Demolition Project Is Well Along Toward Completion

Engineers of the New York State Department of Public Works today began staking out sections of the Broadway crossing project area, and it was announced at the office of J. S. Bisby, district department engineer of Poughkeepsie, that actual work on the main contract may start within the next two weeks.

Representatives of Lipsett Inc., of New York, low bidder on the project, are also in the city to arrange to set up a temporary office in the crossing area and to handle other preliminary details in conjunction with starting the work.

Following Custom

The contract has not yet been officially awarded by the state, but it is customary for a low bidder to start preparations as soon as he obtains his insurance. The official state awarding of contract is not made until every business and technical detail is completed.

The demolition work of contractor Frank Hoffman of Pleasant Valley, meanwhile, is nearing completion, and a major portion of the crossing area will be cleared when the main contract work is ready to start. Several other buildings will be demolished as the main contract work progresses, and this will be done by the new contractor.

Bid Is for \$897,925

The bid of Lipsett, Inc., was \$897,925 and the next lowest bidder was A. S. Wickstrom, Inc., of Skaneateles at \$904,637.25.

The New York contractor is now "getting equipment in shape," an engineer said, and unless there is an unforeseen delay, he should be ready to start work within the next two weeks.

It was announced after the opening of bids Oct. 7, that the state usually takes 30 to 45 days to arrive at final approval of a contract, and if the work starts in about two weeks, approximately a month will have elapsed.

J. S. Bisby, district engineer of the state public works department, who is stationed in Poughkeepsie, will be in charge of the project.

Agreement Is Reached

Washington, Oct. 18 (AP)—A Senate-House conference committee today reached "complete agreement" on a farm price support bill.

Took 12 Seconds

Const to Const Telephone Call via Dial System Is Put Through

New York, Oct. 18 (AP)—The first transcontinental dial telephone call was made late yesterday in 12 seconds.

In two dialing operations, an Oakland, Calif., operator put through a call to New York.

The call was from Mark R. Cas, president of the Pacific Telephone and Telegraph Company, to Dr. Oliver E. Buckley, president of the Bell Laboratories, and Keith S. McHugh, president of the New York Telephone Company.

Ordinary transcontinental calls take about two minutes to complete. The phone company says this will be cut "to a matter of seconds."

## Service Clubs Back Y.W. Drive With Full Endorsements

Fully endorsing the program and financial campaign drive of the Y.W.C.A., the three service clubs, Kiwanis, Rotary and Lions, offered special certificates and invitations to dinner to the top three Y.W. campaign workers in the current drive for \$12,000. The offer was announced by Francis Martocci, the main speaker at the first report meeting of the campaign workers at the Y.W. Monday night. Reports showed a total of \$1,591.40 collected so far. The drive closes next Monday.

Charles Bach, president of Rotary, also endorsed both the Y.W.C.A. and Y.M.C.A. reporting that his club was so heartily in favor of the work the Y was doing that each year his organization provides 100 boys' memberships in the Y.M.C.A. Alvin Feuerstein, vice president, and Martocci, immediate past president and district deputy governor of Lions Club, represented that organization.

Martocci spoke of how fortunate the Y.W.C.A. is in having all three service clubs in the community unanimously supporting its program.

He recalled his own boyhood and the many hours spent at the Y.W.C.A. in Brooklyn where the boys would gather after school for basketball, hand ball, debating teams, swimming and any number of activities. Still today he renews acquaintances at the Brooklyn Y.M. and keeps fond memories of the Y.

"Have no fear about what you are selling," Martocci told the workers. "For it is something that is good. Something good for your youngsters, good for my youngster and good for everyone."

"This building should be enlarged," he said in referring to the recreation hall building fund which the workers hope to start with subscriptions over the necessary expenses. "And with your help it is going to be enlarged," he said.

In closing he spoke of his work in the city court where he has seen instances of what the Y's can do to improve young people. Not only does the citizen of a community benefit directly but often indirectly by the work of the Y.W.C.A. he said.

Mrs. Theron Culver presided at the meeting and Mrs. Frederic Holcomb called for the first reports which totaled \$1,591.40 toward the \$12,000 goal. Totals according to wards were announced as follows: First Ward, \$254.50; second, \$174; third, \$116.25; fourth, \$49.90; fifth, \$54.75; eighth, \$139; ninth, \$58; tenth, \$102.75; eleventh, 77.25; twelfth, \$75; thirteenth, \$40; initial gifts, \$470.

The Rev. D. L. Haynes, pastor of St. Mark's Church, gave the invocation and the Rev. Arthur E. Audemool, pastor of the First Dutch Reformed Church, gave the benediction.

Miss Jane Van Etten, now executive director of the Y.W.C.A., was introduced to the workers and wished them all success in their efforts for the campaign.

Other guests introduced at the meeting were Miss Hazel Metcalf, Ulster County Girl Scout executive director; Mr. Culver, Mrs. Rigby, Mrs. Henry P. Eighmey, Mrs. Harold Davis, Miss Florence Cordts, Mrs. John N. Cordts, Mrs. Martocci, and Mrs. A. Noble Graham, as a past Y president, also spoke encouragingly to the workers.

Additional ward workers included First Ward, Miss Nellie Elmsford; Miss Ella Mulham; second, Mrs. John Matthews; ninth, Miss Emily D. B. Hoysradt; Mrs. Mildred Wylie, Miss Rose Helen Mellert; thirteenth, Mrs. James Betts.

A second report meeting will be held Friday night and Monday night next week, the final reports on the campaign will be given.

## 50th ANNIVERSARY SCOOP!

**SPECIAL PURCHASE \$4.98**  
**METAL VENETIAN BLINDS**

328 WALL STREET

## Republican Candidates

MARTIN F. KELLY

The Republican Party has chosen as its candidate for alderman of the Seventh Ward Martin F. Kelly, who is a native of Kingston and a resident here for over 30 years.

Mr. Kelly resides at 86 Spring street and is genuinely interested in the welfare of his ward as well as that of the entire city.

Fraternally he is a member of Kingston Lodge, No. 970, Loyal Order of Moose, and Kingston Musicians Union, No. 215. He is a member of St. Mary's Church, where he is a soloist in the church choir.

A welder by trade, Mr. Kelly is employed by the Ulster County Highway Department.

Mr. Kelly is married to the former Grace Lamoreaux and they have three children.

Widely known throughout the city and vicinity as a musician, the Republican candidate has furnished popular dance music and entertainment at many local social functions.

As a member of the Common Council, Mr. Kelly can be depended upon to represent his ward and the city of Kingston at large in an intelligent, faithful and conscientious manner.

## BARBS

By HAL COCHRAN

A six-foot earthworm was displayed at an Oregon fair. Can't you just see mother putting that on a hook?

Ice skating will come with the winter, the fall will come with ice skating.

They used to say that late eating made you stay awake. Lately it's been night baseball.

The fellow who takes no stock in the get-rich-quick salesman's lingo takes no stock.

A professor says that the picturesque oaths of the olden days are no longer heard. He should take up golf.

JOSEPH GARDINER

In the Fourth Ward of the City of Kingston, the Republican Party has chosen a young man for its candidate as supervisor of whom it is proud to recommend to the voters of that ward.

Joseph Gardiner of 40 Second avenue has been chosen to run for that important office, which he is capable of filling to a high degree of efficiency.

Mr. Gardiner is married to the former Elizabeth Demsko and they have one son. He has been a resident of the Fourth Ward for 15 years.

He has been in the employ of the Fuller Shirt Company for 16 years.

As a member of the Board of Supervisors, Mr. Gardiner will represent his ward and also the city in an intelligent and conscientious manner.

## Mark Warnow Dies

New York, Oct. 18 (AP)—Mark Warnow, 47, long-time orchestra conductor of the Lucky Strike 11th Parade radio show, died of a heart attack yesterday. He complained of feeling exhausted Sunday night after returning from Richmond, Va., where N.B.C.'s 493rd hit parade broadcast originated.

Warnow entered Polyclinic Hospital for a checkup about noon yesterday and died an hour later. A native of Russia, Warnow was brought to the United States at the age of five.

## Coin Club Meeting

The Hudson Valley Coin Club will hold its regular monthly meeting on Wednesday night, October 19, at 8 o'clock in the Y.M.C.A. Very important matters for the future welfare of the club will be under discussion and an election of officers will be held for the following year. All members are urgently requested to attend.

County Legion Meeting  
Wailkill, Oct. 18—The county committee of the Ulster County American Legion will be held in the high school here on Thursday, October 27, it has been announced by Thomas Polizzi, county adjutant. Rose Shelley Post, 1034, will be hosts. The Ladies' Auxiliary will meet at the same time in the school. All Legionnaires are invited.

## Extensive Program Planned in Area For Catholic Youth

At a dinner meeting in the Kirkland Hotel, pastors and assistants of the various parishes throughout Ulster county discussed promotion in this area of the Catholic Youth Organization and its programs.

The session was presided over by the Rev. Henry E. Herdegen, newly-appointed moderator for Ulster county. The Rev. Philip J. Murphy, archdiocesan director, and William Miley of Yonkers, regional director, were guests.

Miley, in addressing the group, stressed the importance of organized youth programs and spoke of their great success in the other counties of the New York Archdiocese. Father Murphy announced that the archdiocesan director had appointed Leo A. Schupp as the C.Y.O. director for Ulster county. He also discussed local problems of organization and promised that everything possible would be done to set up a good working unit in Ulster county.

The program as outlined by Father Murphy and Director Miley covers cultural pursuits as well as athletics, filling the temporal as well as spiritual requirements of the youth. Various athletic programs are already underway, including the men's bowling league and the organization of howling leagues for the ladies and one for high school youth. Both leagues will get under way in the near future. Plans are also being made for basketball leagues and foul shooting contests. One-net play and tennis contests are on the program for the spring months.

Youth forums will be held early next year with a trained staff of 20 specialists under Father Terence Cooke. Sessions will be held on square and modern dancing. Professional actors and actresses from the Gonesian group will supervise and coach sessions on dramatics. Training courses will be held and the faculty for the courses will be composed of speakers and panel participants, informal religious education specialists, workshop leaders, specialists in crafts, athletics, games,

music, social recreation, community singing and dramatics. These instructors will be recruited from public and private agencies, and recognized authorities and groups from universities and colleges.

In closing his remarks Father Murphy quoted His Eminence Cardinal Spellman when he spoke of the Catholic Youth Organization. "The training of youth is a sacred trust. Good personal, good equipment and good programs are essential, but the most important element for giving purpose to life, for the moulding of character, is religion. The preservation of tolerance, justice and charity depends upon training our youth to recognize in their fellow citizens—their brothers. May the purpose of the Catholic Youth Organization continue as ever to be this; to make our youth loyal,

noble citizens of the city of God. For then it follows, as the eye follows the day, that they will be loyal noble citizens of the City of Man, which for us is America.

Finest outlook on the road!

TRULY . . . when you drive the Lincoln Cosmopolitan, you do enjoy the finest outlook on the road.

And not merely from the standpoint of its superbly unhampered visibility alone—not merely because its huge, one-piece windshield is a crystal curve of distortion-free "safety glass" almost five feet wide!

For everything else about this magnificent fine automobile has been designed to make your motoring outlook more enjoyable, too.

Its smartly tailored, luxuriously upholstered "Salon Styled" interior is the most beautiful automobile interior in the world—and the most comfortable, too.

Its brilliant combination of Lincoln power and

HYDRA-MATIC® offers you performance that is hard to surpass for sheer ease and smoothness.

And most important of all to you who value personal prestige—is the exclusive body styling of this Lincoln Cosmopolitan Styling that proudly marks it as the most distinctive car in America!

Incidentally, prices are much lower than you may think. When may we place a car at your call?

DON'T MISS the big television hit "DUST OF THE TOWN" with Ed Sullivan. See your local newspaper for time and station.

## NEW PALTZ

New Palz, Oct. 17 — Miss Helena Swartz of Marlborough is a member of the freshman class at the local college.

Guests in town over the weekend and stopping at the Brick House were Mr. and Mrs. J. R. Phippard of Malverne, William Thomas of Poughkeepsie, William Newton, Brooklyn; Milo Lathrop, L. I., and Martin Rising, Poughkeepsie.

Dr. Alice Rost of Albany spent Sunday with Dr. and Mrs. Walter Rost and family.

Mrs. Fred Coulter and Mrs. William Strong have returned from a few days in Atlantic City. On Wednesday Mr. and Mrs. Coulter, Mrs. Roselle Coulter and son, Ronnie, attended the rodeo at Madison Square Garden in New York.

A roller-skating club known as the "Blue and White Rollers Club" has been formed at the Walkkill Central School.

Two Shakespearean plays will be presented by the Margaret Webster company at the college Tuesday, October 23.

Mrs. Edith Ackhart of Clintondale has returned from spending a few days with relatives in Kingston.

Joel Pettigall of Pennsylvania, Pettigall and sister, Mrs. DeWitt, were the weekend guests of the latter's parents, Mr. and Mrs. Alexander Weisz.

Mrs. Donald Beattie and daughter, Donna, attended the I.B.M. horse show in Poughkeepsie.

Mr. and Mrs. Charles Merte of the New Palz and Highland road were Sunday guests of Mr. and Mrs. George Coutant in Newburgh.

Mr. and Mrs. Delancy Lorenzen were given a surprise house warming Tuesday night at their new home on Huguenot street.

Mrs. Sonia Lentell of Trenton, N. J., was a recent visitor in town.

Mrs. W. J. Lane spent Saturday in Poughkeepsie.

Mr. and Mrs. Vernon Lyons with Mr. and Mrs. Edward Dohman of Highland have been spending a week's vacation in western New York.

A league name and officers were voted upon when women bowlers assembled at the New Palz bowling alleys recently. The eight teams composing the league will be known as The Friendship League of New Palz. Officers include Mrs. Dot Walther, president; Mrs. Joyce Weaver, vice-president; Miss Betty Erue, secretary-treasurer.

Mr. and Mrs. John O'Brien and family of Canaan, Conn., visited relatives here and in Highland Sunday.

Mrs. Norman Kollar spent Sunday in New York.

The annual fall dinner, Black Diamond dinner, will be served family style in the Methodist Church, October 27, beginning at 5 p. m. until all are served. Tickets may be reserved by calling Mrs. Clifford S. Van Valkenburgh, Jr.

Mr. and Mrs. John Bonagura accompanied by Mrs. Laura Vandemark of Cornwall and Miss Edna Dugan and Mrs. Mary Clifton of Gardiner attended the wedding of Miss Susan Regina Lavelle and Edward Francis Little in Morristown, N. J., on Sunday.

Miss Regina Zimmerman, daughter of Mr. and Mrs. Oscar J. Zimmerman, a graduate of New Palz Central High School class of 1948, has been appointed to the staff of the Cortland State College newspaper "The Hilltop Press."

Huguenot Grange will hold the second October meeting Tuesday night with Mr. and Mrs. Cecil DePuy as the hosts.

The following annual committee appointments were made by Clara Osterader, president of the Walkkill Teachers Association at the bi-monthly meeting: Legislative, Bernard Law, chairman; Mrs. Margaret Foster, Gerald Churchhill; public relations, Mrs. Iona Tallmadge, chairman; Mrs. Marie Henzel, Mrs. Doris Hadley, Mrs. Melissa Boyce, Mrs. Anna Schneller, Clarence Perry and Elaine Kniffen, scholarship study, John Kniffen, chairman; Robert Robinson, Mrs. Anne Schneller, Michael Podrasky, Miss Pauline Willoughby and Miss Anne Pustello; faculty production, William Topping, chairman; Mrs. Shirley Gardiner, Vincent DeAngelis, Miss Helen Lyons, Miss Minnie Underhill, Robert Robinson, gifts, Mrs. Shirley Gardiner, chairman; Mrs. Wilma Klein, Miss Wilma Cushman and Mrs. Mary Vandemark; October get-together, Clarence Perry, chairman; Mrs. Norma Parry, Miss Pauline Willoughby, Miss Sarah Gulick and Miss Helen Lyons.

Edward Cumiskey and daughter, Miss Kathryn Cumiskey of Marlborough, were recent visitors of Miss Jane McHugh.

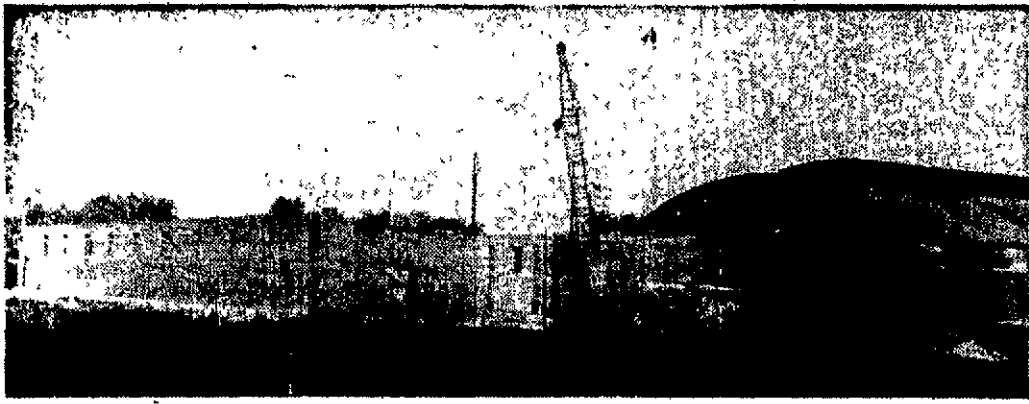

Dr. Kenneth E. Howe, head of the education department in New Palz, was the guest speaker at a meeting of the P. T. A. Thursday night at the Highland High School.

Three hundred and 52 adults registered for courses under the Adult Education Division at the New Palz Central High School.

Mrs. Myron Shullis of Modena was a visitor in town Friday.

Those performing with the New Palz Drum and Bugle Corps are: Drummers, Cliff Aisford, Dick Caram, Bob Cossano, Dick Davis, Ray DeGraff, LeRoy Harris, Dave Holter, Bill Lane, Alan Place, Barry Purcell, Norman Rank, Gordon Smith, Vinnie Walker and Charles Winfield; buglers, Jim Ashton, Jane Bracken, Ronny Burke, Ralph Clearwater, John Cunningham, George Dammeier, Joe DeMaria, Harry Dippel, Walter Dyer, Tom Elsbree, John Frostick, Don Hasbrouck, John Jacobson, Jack Klix, Fred Luedke, George McCabe, Nancy Moerke, Earl Place, George Raftery, Bill Rhinehart, Bob Sutton and John Velt; drum majorettes, Ethel Ashton and Betty Lou Carroll; twirlers, Anita Angermann, Rene Burden, Patty Burke, Bernice Clineham, Patty Deurney, Joyce DeGraff, Gertrude Dippel, Mary DuBois, Joyce Ellis, Claire Ernst, Kathryn Everingham, Jean Kelley, John Kopper, Linda Langwick, Beverly Milner, Caro-

## Services Valley Vehicles

With brick work virtually completed, steel workers were preparing today to erect the roof girders on the new service center and garage under construction behind the New York State Armory on Manor avenue. The building will be used for second echelon repair work for all vehicles in the Hudson valley.

line Quimby, Cathy Velt and Anna Walsh.

Mrs. Arthur DeGraff of Hyde Park and Mrs. Frank Gulnac spent Wednesday with their sister, Mrs. Minnie Mackey at her home on the New Palz and Highland Corners road.

Mrs. Edward Gulpo and children, John and Ellen Jean of Great Neck, L. I., spent Tuesday with Mrs. Gulpo's mother, Mrs. John Christensen on Wurts avenue.

Mr. and Mrs. Howard Van Keuren and Mr. and Mrs. Arthur Ingraham recently visited the Rev. Anson Coutant and Mrs. Zina Coutant at the home of Charles Coutant and family in Oneonta.

New Palz, Oct. 18—The annual meeting of the Business and Professional Men's Association was held recently when Joseph J. Walker was reelected president. Other officers are Dr. Virgil DeWitt, treasurer; William Lorenzen, re-elected to serve on the board of directors; James DeWitt, elected to serve on the board of directors for one year.

New Palz Central High School is conducting a magazine subscription drive under the auspices of the Student Council. The drive ends Oct. 24.

The following have been voted into the local fire department as active members: Ray Morris, Jr., William George and Lewis Shafert, Bruce Sutherland and Harry Dippel were voted as associate members.

Mrs. Fred Smith is recovering from her recent illness at her home on North Oakwood Terrace.

Mr. and Mrs. Harold DuBois attended the Danbury Fair.

Mrs. Carleton Vandewater was in charge of the program of fall flower display at the meeting of the New Palz Home Bureau. Officers for the year are Mrs. Arthur Jorgensen, chairman; Mrs. Henry Berg, vice-chairman; Mrs. Walter Hasbrouck, vice-chairman; Mrs. Alvin Beatty, secretary; Miss Laura Hopkins, treasurer. Leaders are adults blouse and skirt, Mrs. Charles Huntington; aluminum trays, Mrs. Louis D. B. LeFevre; book review, Miss Helena Olds; citizenship, Mrs. O. L. Harding; kitchen and cupboard

planning, Mrs. Charles Mertz; gloves, Mrs. Ralph Johnson; home grounds, Mrs. Carleton Vandewater; neckties, Mrs. Ralph Johnson; recreation and refueling, Mrs. Dale Sutherland; restyling table linens, Mrs. Walter Rost and Mrs. J. M. Wilson; three meals a day, Mrs. Charles Deyo and Mrs. Henry Mertz; tray designs, Mrs. Louis LeFevre and Mrs. Charles Huntington; sharpening scissors and knives, Mrs. Dale Sutherland.

The New Palz College Community Chorus held its second rehearsal last week.

Darrell Harp presided over the meeting of the Stamp Club in place of the president at the meeting last week. The Misses Margaret Hansen and Mary Catherine DuBois, Thomas Pino, Donald Keator, Frank Fredenburgh and Charles Winfield. The club has been invited to attend the exhibit of the Poughkeepsie Stamp Club in the Hotel Campbell, Poughkeepsie, Oct. 29 and 30.

Miss Paul Burke, daughter of Mr. and Mrs. James Burke, New Palz, has been accepted by the Moser Conservatory in New York for professional training. She appeared on Station WATV-TV on Oct. 2.

Mrs. Harriett G. Dayton spent Tuesday with Mrs. Samuel Dayton and Mrs. Caroline Hank on Plattekill avenue.

Contract Action Is Settled in Court

A contract action brought by N. LeVan Haver against Sol Steinberg and others was announced settled in Supreme Court today.

Other actions which have been settled are No. 192, Margaret E. Coffey against Woodstock Property, Inc., negligence, and No. 194, Augustus R. Schrowang against Colony Liquor Distributors, Inc., and another, contract.

Justice Donald S. Taylor made no additions to the day calendar. An action in equity brought by Amelia Bridgman against Rosalie Pollinger headed the day calendar with 68, a negligence action brought by Frank Giannatasio against William Ross to follow.

## Today's Business Mirror

By SAM DAWSON

New York, Oct. 18 (AP) — The coffee boys have come up with a novel idea. It seems simple enough, but if it spreads it might have a delayed kick like the atom bomb.

Importers think that with coffee prices as high as they are, and maybe going higher, and with so much of the rest of the world's money getting cheaper and therefore buying less, soon perhaps Americans will be drinking far and away the most of the world's coffee.

Europeans, they argue, won't be able to afford as much coffee, and the bean will gravitate in even greater heaps to the shores of the well-heeled yankees.

Coffee isn't the only thing that is flowing to this shore because we are the world's wealthiest people, and the world's highest living people. The latter we live, the more industries around the world are being supported. But for the time being, at least, it widens the gap between the standards of austerity abroad and of luxury here.

The American housewife drives down to the store for a can of beans, instead of walking. This is of first importance to the rubber planter of Malaya. She has become his best customer.

American families have the money to buy and run a car and to enjoy wide, comfortable tires with lots of rubber in them.

Margin tin mines in Bolivia and Malaya keep going because of the American housewife's reliance on the tin can to close the gap between the late bridge game and the early dinner.

Because Americans drink so much Scotch whisky, and pay premium prices for it, more Britons drink beer. Distillers over there are required to ship three-fourths of their Scotch out of the country in quest of the free-flowing Yankee dollar.

Americans, with money burning holes in their pockets, can be chain-smokers, or can afford to take a few puffs and leave almost all of the cigarette to burn a hole in the table or rug. Europeans

can afford to import so little tobacco that chain-smoking must be too costly to be common. And the Turkish tobacco growers look more and more to us as the market for their costliest leaves.

Look at some other foreign industries to whom American standards of luxury mean the difference between profit and loss.

The Australian grower of the finest wool, and the British weaver of the most expensive fabrics, the small but growing number of Americans who somehow find the money to buy the costliest suits.

Hawaii flies orchids to New York debutantes, and shop girls. Paris flies dress creations to San Francisco matrons. A generation ago orchids and Paris gowns weren't exactly common in this country. The number of Americans who buy them has grown enormously as the Yankee dollar has swelled in importance in international trade.

South African miners are working overtime to get more gold out of the ground there and into the Fort Knox storehouse here. We are the only country that can afford to store gold. The others are too poor, too beset by postwar problems, to hold onto it. Our treasury gives 35 bits of green paper for every ounce of gold offered. Other nations need that paper for necessities.

Right now everything is humdrum for us. We are the greatest producers of the world's necessities. The rest of the world needs us more than we need it. So we supply the world with the neces-

stiles we know best how to produce. And in return we are slowly and surely cornering the world's luxuries. All roads lead to the United States.

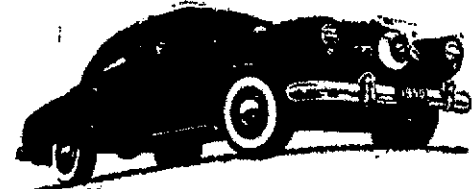

Only the captions would recall that once all roads led to Rome. And on all those roads there was a great flow of luxuries for the gaunt and hungry men on the colder side of the Alps found it easy to help themselves from the riches, as well as necessities.

By the year 5362151, the 14,406-foot Mount Ranier will have shrunk to the size of a molehill, according to a scientist.

## 'These Days'

By GEORGE L. SOKOLSKY

## HOOLIGANISM AMONG THE WARMONGERS

(By Georgi Gramada, Special Kras Correspondent)

The warmongers betray their own masses. For instance, in America nearly every worker owns an automobile. Does he get the automobile as a special privilege because he is a true follower of monopoly capitalism? Nobody asks him.

He has money in his pocket; so he goes and buys an automobile. Maybe he does not have money; so he still buys an automobile. How can he buy an automobile without money in a capitalist country? You should ask such a question, because here in America everything is topsy-turvy. He borrows the money.

There is always somebody in America who wants to lend money. They advertise in newspapers; they shout on the radio. In fact, where the worker goes to buy the automobile, the salesman gives him a piece of paper to sign and already he borrowed money. He sits down in the car and drives away like he owns it. And the funny thing is that he does own the car. It is capitalistic contradiction.

Nobody tells these workers what kind of car he should buy. A black one, a red one, a grey one, a yellow one. Some are big, some are small. Nobody has an eye for uniformity. It is all confusion.

What does the worker do with his car? Does he go to meetings to become familiar with the great philosophy of dialectic materialism? Does he go to the woods to sit on a stone and read the colossal works of J. Stalin? Such grand activities are not for the uncultured who are betrayers of the working class.

No! They use the cars to go to work. So the cars stand, thousands of them, on streets, on parking lots, in rain, in snow, in the hot sun they have here, waiting for each individual worker to come out of his private enterprise. What anti-social waste! Can't the cars be used in a social pool, so that all may use fewer cars? Do they need 35,000,000 cars? Do small schoolboys need cars to find love which in Russia we can find anywhere, even without cars? Do women need cars to buy meat and canned soup and marinated herrings?

Such is the waste and anti-social attitudes of these warmongers that each one wants his own car. I have even seen workers where each member of the family has a car of his own. What kind of government do these Trumanites produce when they let anybody, for no reason at all, have a car?

What is left to reward the Stakhanovist who, out of love of the working class, goes into a factory to show that he can work longer hours and produce a bigger quota than other workers? Why should he be a Stakhanovist, if he already has a car and also a radio and also an electric refrigerator and his wife puts on so much cosmetics that it is impossible to tell the difference between a beautiful actress and an ordinary wife?

To all this Truman is blind. He only thinks of making more bombs to spread American automobiles, radios and lipsticks over the world, corrupting the Balkan dwarf, Tito, with machinery, until every man will have as much as the eternal clash and smash between opposites, is essential to culture and civilization. These workers ignore dialectics altogether.

Yesterday, I pick out a young man who looked intelligent. So we sat in a saloon and drank beer. I, myself, prefer tea or vodka. To a I couldn't get in the saloon and if I asked for vodka, in this police-state, controlled by Wall Street, where Hoover-Dulles forces dominate Trumanism, they would fast telephone the K.E.I. and maybe I would have brought to the German workers fraternal greetings from the Twelve who are being railroaded by monopoly-capitalism after being framed by Cardinal Spellman, the defender of black darkness.

So, I say to the worker:  
 "How is that dialectical materialism, is unknown to you?"  
 He answers: "Come again!"  
 So I say: "You don't know dialectical."  
 He interrupts me: "Oh! You mean like Schopenhauer and Eddie Cantor talking naturally?"  
 Such capitalistic contradictions!

(Copyright, 1949, King Features Syndicate, Inc.)

## That Body of Yours

By James W. Barton, M.D.

## HELPING DEFECTIVE CHILDREN

Several years ago I was asked by the government to examine physically the boys at a reformatory school and also the boys at an institution for defectives. The mental defectives ranged from I.Q.'s of 80 down to idiots. Associated with me was a professor of psychology who made the mental examination, and a school principal, later to become a judge of a juvenile court, who compared and considered our two reports. In examining the boys of the reformatory school, we found four whom we recommended should be sent to the institution for defectives but found no defectives for training. These defectives, as far as we knew at that time, would never improve mentally or emotionally.

It is indeed gratifying to learn that the general physical and emotional conditions of these young defectives can now be improved by the operation, lobotomy, of which I have written several times in cases of odd behavior in adults. Lobotomy is the cutting of nerves supplying front portions of the brain. It has been used with excellent results in men and women suffering with deep grief and depression.

"Hospital Weekly," Paris, Drs. M. P. Klein and G. Tardieu report that they performed lobotomies on 8 idiotic children between the ages of 2 and 15 years, 5 of them less than 7 years. There were no reactions; the children seemed to feel comfortable immediately after the operation. They remained quietly in bed, their agitation or disturbance of mind was quieted, and they took notice of objects. They required little or no more food. Toys could be put around safely in the apartment and could eat at table. With these results Drs. Klein and Tardieu believe that lobotomy should be used in idiotic children with an intelligence quotient of 20 to 30 or less and in other mental conditions in which any other method of treatment does not offer any hope. While the great majority of defectives do best in a mental institution, it may be that by lobotomy some may be able to return and live safely and happily at home.

## Neurosis

Neurosis—believing you have a physical ailment when none exists—is becoming increasingly common. Send today for Dr. Barton's informative booklet on this subject entitled "Neurosis." To obtain it, send 10 cents and a 3-cent stamp, to cover cost of handling and mailing, to The Bell Syndicate, Inc., in care of The Kingston Daily Freeman, Post Office Box 99, Station G, New York 19, N. Y., and ask for your copy.

(Released by The Bell Syndicate, Inc.)

world unity in all this weird maneuvering we would be happy to have it pointed out by Global Garry.

The "German Democratic Republic," set up by the Russians in their zone of Germany, is a falsehood in every word of the name. It is not German because it is Russian-inspired and Russian-supported, it is not democratic and not a republic. It is quite an achievement to attain 100 per cent untruth.

It's all very well to advise people to put a hand to the plow, but in modern life too many people don't know what a plow is.

## The Bear Is a Bear at Conniving

## The Washington Merry-Go-Round

By DREY PEARSON

Washington.—John L. Lewis is now as sore at U.S. Steel as his once friend, now rival CIO, Chief Phil Murray. This was behind John L.'s sudden walkout from the conference with northern operators at White Sulphur Springs, W. Va., and here is the inside story of what happened.

Lewis had put out a "feeler" to the men's room, the northern operators waited, and waited. Finally they learned that John was already on his way to Bluefield, W. Va., to confer with southern operators.

Johnson Worries Over Tito  
 Shooting from the hip, Secretary of Defense Johnson brought U. S. foreign policy up to date the other day for the men who must vote the money to finance it.

The very fact that Lewis made an "offer"—even though the feeler method—was big news, since up till then both sides had shied away from making the first overture.

However, U. S. Steel, which controls the coal strike almost as tightly as it controls the position of management in the steel strike, wasn't impressed.

George Love, of the Pittsburgh Consolidation Coal Company, who works hand-in-glove with U. S. Steel, also objected—which meant that Lewis' "feeler" was a dead duck.

Reason for U. S. Steel's opposition: It can't give Lewis more than it gives Phil Murray.

In fact, U. S. Steel already has many industrial leaders' ears because two years ago it gave Lewis a welfare fund with no contribution from the union. Despite this, U. S. Steel has now turned round and is demanding that the steelworkers themselves contribute something to their proposed welfare fund.

Therefore if U. S. Steel's captive coal company now increases Lewis's welfare fund without any payments from labor, Phil Murray would make a fresh set of demands on behalf of the United Steelworkers.

When Lewis learned that his

"feeler" had been rejected, he was fit to be tied. Insiders expected him to barge into the next meeting, speeing fire and verbal brimstone at the northern operators. Instead, he walked in without saying a word, sat for five minutes scowling at the window. Then, as conspicuous as when he entered, he walked out.

Figuring that Lewis had gone to the men's room, the northern operators waited, and waited. Finally they learned that John was already on his way to Bluefield, W. Va., to confer with southern operators.

## Politics in Unions Sold to Be Behind Tie Up of Nation's Steel Mills

By DAVID LAWRENCE

Washington, Oct. 18.—Politics inside the big unions, aspirations to leadership over many millions of members, and a bitter struggle for individual power is behind the tie-up of the nation's steel mills which Secretary of Commerce Sawyer says will mean 5,000,000 unemployed by December 1, attributable to the strike alone.

Because Philip Murray, head of the C.I.O., fears the political strength of his rival, Walter Reuther, head of the United Automobile Workers, because these can be no showdown between the two until the C.I.O. convention is held on October 31, all hope for the ending of the steel strike before that day has been virtually abandoned here.

Even if Mr. Murray wanted to make an agreement, he couldn't without risking his future in the union movement. This, too, is recognized across the bargaining tables and means that everybody wants to wait now to see if Mr. Murray will be re-elected before urging him to make a settlement.

There are literally dozens of ways of ending the steel strike—all sorts of proposals and methods that would save face for everybody concerned, with the exception, of course, of what could be called a political solution. Mr. Murray accepted any proposition that meant settlement outside of his own terms.

It may come as a surprise to the nation to discover that millions of workers are kept from their jobs and factories are closed and the flow of materials to small businesses is halted, all because a political situation exists that has to be respected—or at least that the administration here thinks is entitled to consideration.

There is enough power in the existing Labor-Management Relations Act to enjoin any continuance of the coal and steel strikes. The President could act if he so desired. The law doesn't compel him to do so, but public opinion can.

If, however, Mr. Truman proceeded against Mr. Lewis and the miners' union, he would have to proceed against Mr. Murray and the steelworkers' union. The excuse given for not acting is that 77 days were given over to fact-finding and negotiation in the steel dispute without result and hence no good could be expected.

Undersecretary Forgets  
 The next hot subject brought up was China. Cropping a bit for words, Webb explained that Secretary of State Acheson had assigned three groups to study China, then had invited 20 prominent citizens last week to consult on the question.

Bridges promptly asked for the names of the 20 citizens, but Webb could think of only two—former Secretary of State George Marshall and former Republican Presidential Candidate Harold Stassen. Bridges then demanded that the committee be furnished the other eighteen.

Another consistent critic of our China policy, Senator Knowland, California Republican, asked about the \$75,000,000 President Truman had asked as a blank check to aid China.

"Will this \$75,000,000 be used if it is authorized?" asked Knowland. Webb hesitated, but Johnson spoke up bluntly.

"As far as the defense department is concerned," he declared, "it wouldn't be asked for unless we intended to use it."

For Atlantic Pact  
 Senators Ken Wherry of Nebraska and Homer Ferguson of Michigan, also Republicans, asked about the defense plans of the Atlantic pact nations. They pointed out that, under the law, arms for Europe could not be sent until an integrated defense plan was worked out.

"How," asked Ferguson, "can you ask for appropriations for arms implementation if no defense plan has been submitted?"

Johnson replied that the Atlantic pact nations have been working on a defense plan since October 5. Although no formal plan has been agreed upon, the tentative plan is in such shape that defense officials felt they could go ahead. A comprehensive strategy would be ready by January, but the President wanted the appropriations also to be available so he could act without delay, Johnson added.

The Senators went away from the meeting impressed, if not always satisfied, with Johnson's answers. They liked the secretary of defense' "refreshing frankness."

Twenty and Ten Years Ago  
 Oct. 18, 1929—October 21 was announced as the date for public inspection of the reconstructed city hall.

Mrs. Andrew Keefe was elected president of the Kingston branch of the WCTU.

Mrs. William J. Flynn died at her home in Poughkeepsie.

Clarence M. Snyder died at his home in Woodstock.

The Freeman thermometer recorded an overnight low temperature of 30 degrees.

Oct. 18, 1939—A killing frost hit the area as the city recorded a temperature of 28 degrees and snow was reported in the foothills of the Adirondacks.

Negotiations were in progress to book the Baltimore basketball club for the opener with the Colonials Nov. 1.

Dr. William Hasbrouck Snyder of Newburgh, who was born in High Falls, died at Rutherford, N. J.

County Treasurer V. T. Pine reported receiving \$47,486.69 as the county's share of the state motor fuel tax for the third quarter.

to come out of an injunction proceeding now. But the President is reluctant to admit that he could have used the Taft-Hartley Act to stop the major strikes and reluctant also to take any step that would antagonize his own labor supporters. Mr. Truman is depending on the C.I.O. and the A.F.L. to put up most of the money to influence the outcome of the 1950 Congressional elections.

What is happening, of course, is that big unionism is demonstrating rather dramatically how it can tie up the nation. In the old days, when trade unionism was striving for recognition of the collective bargaining process, little was heard about presidential jurisdiction over economic power greater than that of all the employers in a given industry might be mobilized. Industry-wide bargaining has in some instances built up that power but, even where the employers do not bargain as a unit, they are compelled nevertheless to deal with one big union.

Now when it is proposed that all the big unions act concertedly to force submission on the part of employers, it can no longer be said that the bargaining power or the economic strength of unions is exceeded by that of the employer companies.

Today big unionism is able to paralyze the economic system. The tie-up in coal became so dangerous two years ago that the federal government used the injunction to stop a strike. The public approved. Now it is being urged that Congress repeal the injunction provisions of the law, Mr. Truman favors such a repeal.

The President is in a delicate position as long as he refuses to apply the Taft-Hartley Act when it is the law of the land. He can be criticized for failing to discharge his duties in enforcing the law. His argument to date has been that, to millions of people, it is a political situation.

The statement by Secretary of Commerce Sawyer portrays such a crisis as coming soon. It does look like the way is being paved for injunction proceedings if no settlement through mediation has been achieved by the time the C.I.O. convention has adjourned.

## AS PEGLER SEES IT

By WESTBROOK PEGLER

New York, Oct. 17  
 Hon. Justice William O. Douglas, Supreme Court of the United States, Yakima, Wash.

Dear Judge:  
 I am sorry your horse rolled on you and broke 14 of your ribs. That is a working majority of any man's ribs and, as one who broke three slats, would say I can't understand how you can hurt that much and live.

Liquor caused my accident. It was winter up in the beautiful Berkshire foothills of the creditor state of Connecticut where a Communist can ruin a patriot by filling a law-suit alleging that the patriot called him a Communist. I had been out tramping the hills and thickets and when, at evening I came in, our villain-maiden had delivered a case of nutritious character-building Old Stepfather which stood on the back-stair landing. I ripped the lid off and tucked six under my arms and about my person and took them up to the closet and I was coming down for the rest when the ice on my heels caught a slick on the stairs and I landed on my rump. It was a disaster. I hurt! I was going to tell you how it hurt but I guess I don't know the half of it. I just know three-fourteenths of it, but if I never learn any more about the hurt of broken ribs I will still consider myself over-educated.

That was during the war. It happened I had head some lift off a murr that some fellow had expressed subversive sentiments about our never to be adequately characterized C-in-C whose passing aroused in me feelings of a depth and nature which I need not define to you. I had heard of these subversive expressions and so, one afternoon there came a call at my humble door. It was two members of the U. S. Secret Service. They found me emerging from my bath like one of those cheese-cake chipmunks of mythology, which is to say I don't wear a swimming suit to tub and was dewy as a Spaniel coming out of Puget Sound. They wanted to know what the character had said about Moore-Jaw I.

Before we went into that I explained my stove in condition and pointed to a big roll of flannel about 18 inches wide like the coverments of Tut-Ankh-Amen or the belly-band the pillus wore in the first of our holy crusades. This

I got well in time, but fun isn't what I could call three broken ribs and 14 ribs, even more than I would wish our mutual friend a few seats down from yours. By the way, Judge, now that Sun-burst Murphy, the Tomato Surprise, is gone, it looks as though you will have to do your hating single-handed, but if you want a pretty fair and hot later to help out until you feel fit to carry double, let me know.

Maybe when you get well you can use this item to adorn your rib routine when you are arching your neck at the national convention of the C.I.O. for the nod in 1952.

Back in the happy days one of my best friends in the fight against Chuck Wepner of Indiana, apollo, the only guy except Tunney who could fight Harry Grib style and hold him even or close to. He was a light-heavy with a nose like an Idaho potato and a heart of gold and when I say he was good to his mother I mean he was good to his mother.

One night Chuck fought a friend in Shreveport and got some ribs stove in and three nights later he was in with Gibbons in New Orleans.

So Chuck went to Gibbons and said after all, it wouldn't mean much to Tommy to knock him out, but it would hurt his earnings. Gibbons, who had been knocked out, but, considerably, he had some busted ribs and if Tommy would be so kind

(Continued on Page 7, Col. 1)

winding cloth is what you will have to wear when the doctors let you get out of bed. It holds you together. It is above your hands long and it starts up under your arms and winds down to your here. Though your mother was proud when you learned to button up your union suit and lace your shoes, no mother ever saw the day when her boy could get into this article single-handed.

Judge, this is a project. One of the Secret Service men held a gun against the ribs on my good side and the other one pointed walking around and around me. Pretty soon he began to skip and then we all began to chirp "Here we go gathering nuts in May, nuts in May, nuts in May" to the tune of that old nursery song that goes "This is the way we wash our clothes. It is above your hands long and it starts up under your arms and winds down to your here. Though your mother was proud when you learned to button up your union suit and lace your shoes, no mother ever saw the day when her boy could get into this article single-handed.

## PORT EWEN NEWS

Port Ewen, Oct. 18—Mr. and Mrs. Charles King of Oceanide, L. I. and Mr. and Mrs. Frank Sach and son Paul of Roosevelt, L. I. were the Sunday guests of their uncle and aunt, Mr. and Mrs. Robert Fairbrother, at their home on Broadway.

The Men's Candelpin Bowling League schedule for Wednesday is: Team 5 vs. Team 8 at 7 p. m. Team 3 vs. Team 7 at 8:30 p. m.

Miss Anna E. Short of Pocantico Hills was a Sunday guest at the home of her brother and wife, Mr. and Mrs. A. H. Short.

The state session of the Sons and Daughters of Liberty of New York State opened at the Governor Clinton Hotel, Kingston, this morning. Mrs. Mary T. Best and Miss Helen Schryver will attend the sessions as representatives of Esopus Council, 42, of Port Ewen. Miss Mary F. Bishop, former na-

tional representative, will attend.

The junior choir of the Reformed Church will meet Wednesday at 8:30 p. m.; the senior choir Thursday at 6:45 p. m.

The Dorcas Society of the Reformed Church will sponsor a rummage sale at 42 East Strand, Kingston, October 19-20-21. The committee in charge is composed of Mrs. Howard Similich and Mrs. Frank White.

The annual Reformed Church fair and bazaar will be held at the church hall on Tuesday, Oct. 25. A Virginia baked ham supper will be served beginning at 5:30 p. m. All members of the congregation are requested to contribute to the various booths.

The junior choir of the Methodist Church will meet Wednesday at 7:30 p. m., the senior choir on Thursday at 7:30 p. m.

All members of the Methodist congregation are requested to

contribute to the food sale which will be held at the Town of Esopus Auditorium on Saturday at 2 p. m. Mrs. Otis Terwilliger is chairman of the sale sponsored by the official board of the church.

At Presentation Church tonight at 8 o'clock the Sodality of the Blessed Virgin Mary will meet in the parish hall. Wednesday at 2:30 p. m. there will be release time for all grammar school children at the parish hall under the direction of the Redemptorist priests from Mt. St. Alphonsus, Esopus. Wednesday at 7:30 p. m. there will be a novena to Our Lady of Perpetual Help, followed by Benediction of the Most Blessed Sacrament and confessions. After the novena the regular meeting of the Presentation Women's Club will be held at the parish hall. Hostesses are Miss Esther McGowan and Mrs. Rose O'Reilly. The refreshment committee is composed of Mrs. Mary Murphy, Mrs. Anna Needham, Mrs. Anna Pendergast, Mrs. Margaret Reynolds, Mrs. Margaret Watson and Mrs. Rose O'Reilly.

Mrs. Hattie Ward of Poughkeepsie visited her cousin, Mrs. Raymond Every Sunday.

Mrs. Stephen Thompson of Kingston spent Sunday with her nephew and niece, Mr. and Mrs. Peter Lemister.

There will be a meeting of the public health nursing committee of the Town of Esopus at the health center on Wednesday, Oct. 19 at 2 p. m.

The Ulster County Women's Republican Club will sponsor a card party at the Town of Esopus auditorium in Port Ewen on Wednesday, Oct. 26, at 8:15 p. m. Refreshments will be served and the public is invited. Tickets may be purchased at the door or from any member of the club.

Many Names, Few Kinds

Although cheese is marketed throughout the world under 400 or 500 different names, there probably are only about 18 distinct varieties, according to the Encyclopedia Britannica.

Oldest Known Legal Code

Oldest known legal code is the Babylonian code of Hammurabi, according to the Encyclopedia Britannica.

The thermometer at the West Yellowstone national park station recorded 66 degrees below zero on Feb. 9, 1932, a record low.

## Removed in Thruway Job

The above 16-room house was one of about 10 removed under the direction of Arnold Rymkevitch of Boiceville during the recent state Thruway work near Saugerties. This particular residence was removed from near the intersection of Route 32 and the Woodstock-Saugerties road. About two months was needed in the process of removing the homes. Rymkevitch, who previously did construction work for the Kingston Board of Education at Sahler's property and also at Public School 6, said the biggest obstacle in removing the homes is the actual time in preparing the homes for removal. About two weeks were required to prepare the home for removal. Rymkevitch also was contracted to do bulldozing work at the Belle Ayre ski slope where Lawrence Kunkel of Samsonville and George Leonard of Wittenberg were in charge of the heavy bulldozing machines.

## Do You Remember

by  
SOPHIE MILLER

Being asked several times if I ran across anything on the origin of postal service in Kingston and vicinity. Fortunately Mr. Matthews loaned me Judge Clearwater's history which covers just about everything. This particular book was once owned by Mayor Crane, who also happened to be postmaster in 1924 and no doubt

he could give me information of that period.

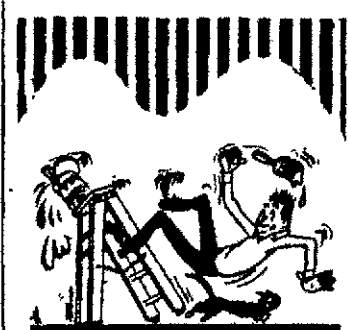

Quoting in part from Clearwater's book, page 234: "The post office must have been established prior to the Revolution, but there is no authentic record of local postal affairs until published in the form of the Republic. On August 27, 1793, following official postal notice appeared in the 'Farmer's Register,' a Kingston newspaper of that period: 'Those gentlemen who wish to have their letters forwarded by Post, are requested to send them to the Post Office at Kingston on Wednesday evening.'"

Even as late as 1815, the list of 'uncalled for letters' in the Kingston office included names of residents in the different towns in the county, indicating that it was then the only post office in the county. Postal facilities were of course crude and meager in those days. A newspaper known as the 'Ulster Plebeian' published in 1815, had great difficulty in delivering the paper to its subscribers in the outlying districts. For a time a special 'Post Rider' was employed, and it cost the publishers over a dollar a year for each subscriber, which was more than half the price of the subscription. Finally in 1817, a 'Post Route' was established between Kingston and Milford, Pa., and on the 13th of November, the first United States 'Mail Carrier' left Kingston on horseback, making one trip a week."

'Free City Delivery' began May 1, 1895, with 11 carriers, which was increased to 16 in 1907 (when Clearwater's book was published). Kingston became a first class Post Office July 1, 1901. The main office, located in Kingston Opera House Building, corner John and Fair St., since 1869. The Round Post office was established some time prior to 1830 and continued there until 1895, since which time it has been maintained as a sub-station of the Kingston office. The Wilbur Post Office, established about 1856, was abolished in 1895. (No doubt the D. & H. Canal influenced the Round and Wilbur Post Office establishment.)

Clearwater further states: "An appropriation of \$110,000 made by Congress for public building. Plans have been drawn for a new post office, a site secured and the foundation completed at the junction of Prince Street, Pine Grove avenue and Broadway. \$25,000 having been thus expended."

According to Kingston Daily Express of May 30, 1908—the Indiana gray sandstone, Main Post Office, as we know it today, was to be open on July 1, 1908. That was also the time that there was talk that the uptown and downtown post offices may be closed. In June 1909, Herbert Carl of the famous North Front street (now Montgomery-Ward) offered post office space in his store at \$1 per year. There was much agitation with the post offices remaining as they were at both ends of town

In the 1950 Nash Airflyte you get all the advantages of Airflyte Construction—in new, finer, super-powered models—at prices from \$73 to \$140 less than last year!

## 20.7% Less Air-Drage

Here is the beauty born of Airflyte Construction... complete streamlining, even of fender lines. Beauty that splits the air with 20.7% less air-drag than the average new car—by scientific wind-tunnel tests at the University of Wichita.

## Stays New Years Longer

Yes, Nash alone has Airflyte Construction. It's a single, solid welded unit—stronger, safer than bolted body-and-frame construction. It is rattle-proof, squeak-proof—has twice the rigidity for safety. It stays new years longer, costs less to maintain, and adds to re-sale value.

Drive a Nash Airflyte and see the difference—in brilliant performance—in gasoline economy—

save as much as 30%! The big Nash Statesman shown above delivers more than 25 miles to the gallon at average highway speed.

In Nash alone you can have Weather Eye Comfort... the Airliner Reclining Seat... Twin Beds... the smoothness of Nash coil-springing on all four wheels... the great curved, undivided windshield in all models.

Yes—compare Nash with any car at any price—for size, for comfort, for features, for value.

## Now—Hydra-Matic Drive

In the 1950 Nash Ambassador you can have the famous Hydra-Matic Drive with a Nash exclusive—Selecto-Lift Starting. Just lift a lever and go. No clutch pedal—no gear shifting.

Let your Nash dealer demonstrate the greatest automobile ever built—the car of Airflyte Construction.

## Naval Reserve Unit Meeting

The regular meeting of the Kingston Naval Reserve Unit will take place Wednesday evening at 7:30 at the American Legion Hall on West O'Reilly street. A new program has been arranged for the unit which has been submitted to the district director of the Naval Reserve and the commandant of the Third Naval District. The program provides for lectures on topics of interest to the navy to be given by members of the Albany Organized Unit, the Poughkeepsie Organized Unit and the Newburgh Organized Unit at the scheduled meeting nights.

Tomorrow evening Edwin John J. Bosch, U.S.N.R., of the Newburgh Organized Unit will speak on "Deck Seamanship." Ensign Bosch has had many years of sea duty on all types of vessels and is highly qualified to lecture on this subject.

All members of the Reserve are invited to attend.

### Bell Strike May End

Niagara Falls, N. Y., Oct. 18 (AP)—An end to the four-month-old, violent Bell Aircraft strike appeared at hand today. Striking C.I.O. United Auto Workers were scheduled to vote tonight on tentative settlement terms accepted by both company and union leaders. Union spokesmen said they would urge members of the striking local to accept the agreement. A state fact-finding board, which entered the dispute a week ago, announced the tentative settlement yesterday. Terms of the agreement were not disclosed pending union action.

### Girl Dies in Plunge

Parris, Oct. 18 (AP)—A girl identified by French police as Miss Patricia Hunter, 27, from Fort Chester, N. Y., plunged to her death today from the second platform of the Eiffel Tower. The police said the girl had destroyed all her papers before hurling the 380 feet to the ground, but that identification was made from torn checks.

### Card of Thanks

We wish to express our sincere appreciation to our relatives, friends and neighbors for their kindness shown during the illness and death of Thomas A. Eason. Also for the many beautiful floral offerings.

MRS. MARJORIE EASON (Wife)  
MR. & MRS. THOMAS EASON  
AND FAMILY

### DIED

DAVIS—In this city, October 16, 1949, Margaret Davis, sister of Mrs. Mary L. Coley and Mrs. Ella Grisaid.

Friends may call at the residence of her sister, Mrs. Ella Grisaid, Highland, N. Y., Tuesday evening. The funeral will be held from Holy Trinity Episcopal Church, Highland, N. Y., Wednesday, October 19, 1949, at 2 p. m. Interment Highland Cemetery. Please omit flowers.

HALE—In this city, October 18, 1949, Eugene L. Hale, of 249 Washington avenue, aged 81 years.

Funeral at the parlors of A. Carr & Son, 1 Pearl street on Thursday at 2 p. m. Relatives and friends are invited. Interment in Willwyck Cemetery.

RYLAND—In this city October 18, 1949, Catherine Ryland, widow of William Ryland of 48 West Chestnut street.

Funeral services will be held at the Lawrence D. Rouse Funeral Home in St. Albans, N. Y., on Wednesday at 8 p. m. Interment in Greenwood Cemetery, Brooklyn, on Thursday. Kindly omit flowers.

WHITE—At Kingston, New York, Monday, October 17, 1949, Albert N. White, of High Falls, N. Y., husband of Marie E. White, father of Mrs. Lawrence Friel, son of Mrs. Frances Gleason White, brother of George White and Mrs. Henry Schmidt, stepbrother of Mrs. John Fitzgerald, Mrs. Emmet Sullivan, and Mrs. Joseph Sullivan. Father-in-law of Mrs. Albert L. White. Also surviving are three grandchildren.

Friends may call at the George J. Moynihan Funeral Home, Main street, Rosendale, at any time until noon Thursday. Funeral services will be held at St. John's Episcopal Church, High Falls, Thursday afternoon at 2 o'clock. Interment in the High Falls Cemetery. Newark papers please copy.

Memorial  
In loving memory of E. W. Forrester who died one year ago today, October 18, 1948.

One but not forgotten.

Signed,  
EMPLOYEES OF THOMSON'S LAUNDRY

Memorial  
In loving memory of Elma Love, who passed away on October 18, 1947.

Two years have passed since that sad day.

The one we loved was called away.

God took her home, it was His will.

But in our hearts she liveth still.

Signed,  
HUSBAND, DAUGHTER AND SON.

## Late Bulletins

Washington, Oct. 18 (AP)—The Senate Commerce Committee today approved unanimously President Truman's nominations of Mon C. Wallgren for the Power Commission and James Mead for the Trade Commission.

'Surplus' Is Protested  
Washington, Oct. 18 (AP)—Rep. St. George (R-N. Y.) protested to the House today air force plans to make Stewart Field, N. Y., surplus.

The field, located at Newburgh, N. Y., has \$20,422,000 in new facilities, Mrs. St. George said. Abandoning of the field, she added, would force 385 civilians to lose their jobs.

She said she also protested the possible closure to Secretary of Defense Johnson. In the past the field has been used among other purposes to provide flight training for West Point cadets.

Mrs. St. George said that if the air force abandons the field she hopes it will be taken over by either the army or navy to prevent "an economic upheaval" in the community.

## Local Death Record

Funeral services for Henrietta Plasm of Lake Katrine were held Sunday afternoon from the W. N. Conner Funeral Home, Rabbi Herbert L. Bloom officiated. Cremation was at the Ferneliff crematory Monday.

The funeral of Mrs. Agnes G. Fellows of Lake Katrine was held from the A. Carr and Son Funeral Home, 1 Pearl street, on Monday at 2 p. m. The Rev. Burton F. Tarr, superintendent of the Kingston District, New York Conference of the Methodist Church, officiated. Burial was in Mount Marion cemetery.

Funeral services for Peter J. Scully of Sarnsville, who died suddenly Thursday, were held Monday morning from the W. N. Conner Funeral Home, Rev. Arthur B. Oudemool of the First Reformed Church officiating. Bearers were Roscoe North, William Scully, Charles Scully, James Scully. Interment was in Hurley Cemetery.

Eugene L. Hale, of 249 Washington avenue, died early today. Besides his widow, Ada Webster Hale, he leaves two sisters, Mary Coley and Mrs. A. Hale, both of Kingston; and a niece, Mrs. Anne W. Chaffield of Southbridge, Mass. Funeral services will be held at the A. Carr and Son Funeral Home, 1 Pearl street, on Thursday, Oct. 20, at 2 p. m. Relatives and friends are invited. Burial will be in Willwyck cemetery.

Margaret E. Cox, died in Saugerties, Monday. A sister of Henry L. Cox of Kingston, she leaves another sister, Mrs. Eugene Friel of North Adams, Mass., and Sister Mary of the Holy Family of Albany; two nieces, Mrs. Edward King of Saugerties and Mrs. Albert Peters of Kearney, N. J.; two nephews, Matthew and George Cox of Saugerties and a sister-in-law, Mrs. Jennie Cox of Kingston. Funeral services will be held from the Keenan and Son Funeral Home, Saugerties, on Thursday, Oct. 20, at 8:20 a. m. and from St. Mary's Church, Saugerties, at 10 o'clock. Burial in St. Mary's Cemetery, Saugerties.

The funeral services for Mrs. Mary Van Vleet formerly of Ulster, who died at the Kingston Hospital, were held at the funeral parlors of Allen McCann in Poughkeepsie Monday afternoon.

The Rev. Arthur G. Carroll, formerly pastor of St. James Church, and former superintendent of the Kingston District Methodist churches, officiated. While the body reposed in the funeral home, many friends and neighbors called to pay their respects. The funeral was largely attended and many floral tributes were placed about the casket. Burial was in Verbank Cemetery where the Rev. Dr. Carroll conducted the committal service. Bearers were Byron Loebe, Allan Wright, Gerold Kealey and Gifford Seaman, Jr.

Monday afternoon funeral services for William Becher of Connelly were held from the W. N. Conner Funeral Home, the Rev. Gerald W. Madison of St. Remy Reformed Church officiating. The services were largely attended by relatives and friends and the floral tributes were many and beautiful.

Mr. Becher is survived by four sons, Voris of Malone, Charles of Connelly, Clarence and Lorin of this city; nine grandchildren and four great grandchildren; also three daughters, Mrs. Annie Quackenbush of Watervliet, Mrs. Katie Byer of Greenfield, Mass., and Mrs. Pauline Benson of Poughkeepsie. Bearers were Michael Henry, Thomas MacDonald, Clair Evans, William Masterson, Clifford Hicks and George Mehan. Interment was in the family plot in Rosendale Plains Cemetery.

Albert N. White, who had resided in High Falls for the past four years, died in Kingston Monday after a brief illness. A former resident of Basking Ridge, N. J., he was a member of Roseville Lodge, No. 143, F. & A. M. of that city. Besides his widow, Rosalie Gheare White, he leaves a daughter, Mrs. Florence Friel; his mother, Mrs. Frances Gleason White; a brother, George White; a sister, Mrs. Henry Schmidt; and three step-sisters, Mrs. John Fitzgerald, Mrs. Emmet Sullivan and Mrs. Joseph Sullivan, also a daughter-in-law, Mrs. Albert L. White, and three grandchildren. Friends may call at the George J. Moynihan Funeral Home, Main street, Rosendale, anytime until Thursday. Funeral services will be held at St. John's Episcopal Church, High Falls, on Thursday, October 20, at 2 p. m. Burial in High Falls cemetery.

Early Onion Greens  
Onions left in the ground over winter will sprout of themselves in the spring, even before all the snow is gone, giving tasty early greens.

## Holcomb Opens Urology Office

F. W. HOLCOMB, JR.

Dr. Frederic W. Holcomb, Jr. today announced he has opened an office for the practice of urology at 188 Fair street in Kingston.

Dr. Holcomb is a graduate of Kingston High School and the University of Virginia. He attended Albany Medical College from 1941 to 1944. Following graduation he was commissioned a lieutenant, junior grade, in the Navy Medical Reserve. He interned at the U. S. Naval Hospital at Bainbridge, Md., and then was assigned to overseas service with the U. S. Marines. After temporary duty at a base hospital on Guam, he spent six months with the Medical Battalion of the First Marine Division in Tientsin, China.

Returning to this country in May, 1946, Dr. Holcomb interned for one year at Vassar Brothers Hospital in Poughkeepsie. For the past two years he has been on the resident staff at Albany Hospital where he obtained his training in urology, the specialty to which he will confine his practice.

Pending the completion of his offices at 41 Pearl street, Dr. Holcomb is practicing at 188 Fair street.

## New York City Produce Market

New York, Oct. 18 (AP)—Flour steady; (72 per cent extraction—100 lbs.) spring patents 6:00-6:15; eastern soft winter straights 4.75-5.60; hard winter straights 5.70-9.00.

Rye flour steady; Fancy patents (100 lbs.) 4.50-5.00. Commercial steady; (100 lbs.) white granulated 5.40-6.00, yellow 4.40-6.00.

Buckwheat steady; Export and domestic (100 lbs.) 2.25-2.50. Feed easy; Western bran, per ton, basis Buffalo 45.00. A—Asked, N—Nominal.

Butter, 880,547, P.M. Wholesale prices on bulk cartons. Creamery, higher than 92 score (A) 62 1/2-63 1/2; 90 score (B) 60 1/2-61 1/2; 92 score (C) 55 1/2-56 1/2. Cheese 579,375, steady, prices unchanged.

Eggs 19,091, easy. Nearby: (Top quotations on nearby white and brown eggs represent wholesale selling prices for the finest marks and not paying prices to producers or shippers.) Whites, Extra fancy, heavyweights 73; fancy heavyweights 70-72, others large 65-69; mediums 42-43 1/2. Browns, Extra fancy heavyweights 64; fancy heavyweights 61-63, others large 59-60; mediums 42.

Book Is Presented To Kingston Library  
A copy of the book, "Early Days of Oil," by Paul H. Giddens, was presented to the Kingston Library this morning by Esso Standard Oil Company in observance of National Oil Progress Week.

The presentation was made by C. Robert Cousins, local sales representative for the Esso Company. The book is a large, illustrated history of the oil industry from its beginnings in Pennsylvania. It is the second copy to be received by the local library, the first having been presented to them last spring by the Petroleum Institute. A library spokesman said this morning that the library accepted Cousins' presentation with gratitude and will place the book in circulation. The first copy has been much in demand, the spokesman said.

Coal Negotiations Begin  
White Sulphur Springs, W. Va., Oct. 18 (AP)—With the soft coal strike rounding out its first full month today, negotiators gathered for another round of contract talks. The federal government will keep a close eye on proceedings here between United Mine Workers officials and northern and western operators and will watch the similar talks between the union and southern operators at Bluefield, W. Va. Both conferences are scheduled to get underway this afternoon (3 p. m.).

Steel Supplies Are Short  
Detroit, Oct. 18 (AP)—The nation's auto industry is operating on borrowed time as far as its steel supplies are concerned. Situations of three weeks and more starting early next month are not unlikely. This was the word from an authoritative source inside the industry today. The car and truck makers had a four to six weeks inventory of steel when the steel strike began. But they have been eating deeply into these stocks and replacements have been cut off.

Toronto, capital of the province of Ontario, is the second largest city in Canada, and is known as the "Queen City."

## Financial and Commercial

New York, Oct. 18 (AP)—A mid-morning flurry of buying lifted the stock market out of a narrow price rut today.

Gains ranged from fractions to around a point and were well distributed among major groups. Aircraft stocks, strong from the start, showed independent strength. Douglas hit a new high for the year with a rise of 2 1/2 points to 64 at one time and fractional advances were scored by Boeing, United and Lockheed.

Today's rally followed the sharpest decline in around a month yesterday. Profit taking sales on the heels of a rise to the highest average level of the year were held mainly responsible for the setback. The labor situation also played a part in the selling.

Higher prices were paid for U. S. Steel, Youngstown Sheet, General Motors, Chrysler, Studebaker, Montgomery Ward, Zenith Radio, American Telephone, United Gas Corp., Allied Chemical, du Pont, General Electric, American Tobacco, Nickel Plate, Standard Oil (N. J.), and Johns-Manville.

In the bond market selected issues among the more speculative issues attracted mild support. Long-term U. S. government bonds tended upward in over-the-counter dealings.

Quotations by Morgan Davis & Co., members of the New York Stock Exchange, 60 Beaver street, New York city, branch office, 41 John street, R. B. Osterhoudt, manager.

## For Benefit of Mankind

Dr. Henry Lambert Bibby presents to Dr. J. Spottswood Taylor Ulster County's new Tumor Clinic to be dedicated Thursday at 2:30 p. m. in a public ceremony.

## Nichols Addresses Local Taxpayers

George L. Nichols, editor of the New York Taxpayer, told members of the newly formed Kingston Taxpayers League last night that a taxpayers association is not an "anti group" but one standing for efficiency in government and for the most possible economy.

Nichols was a speaker at the first general meeting of the local group in the Common Council chamber city hall, and addressed 117 local taxpayers.

The organization outlined its 15-point list of objectives which are to serve as a working program for the year.

Taxpayers groups, said Nichols, are not for curtailment of municipal services, but they are for good, efficient and economical government, and are welcomed by "conscientious city administrators," because they help "achieve the results every mayor yearns to give his citizens by developing public opinion."

W. Anderson, local vice-president of the league, who opened the meeting, said the league did not pretend to know all the answers, but it would function as a hard-working study group in its effort to learn the answer to better administrative practices.

Quick results would come from no magic formula he said, and the halving of the present tax rate, for instance, was not possible or desirable.

The 15-point program as presented by William Giffen, said the league would like to see a detailed budget presented to citizens of the county with worksheets sufficiently in advance of public hearings to allow taxpayers to question budget-makers intelligently. The budget would list prior and contemplated expenditures, and the league requests "more realistic budget planning," to curtail borrowing by revenue anticipation notes.

Giffen cited as instances of such borrowing the allocation by administrators of only \$1,000 a year for snow removal, "whereas the actual cost has run from \$24,000 in warm 1949 to \$54,000 in colder 1948."

The league also urges a study of long-term financing practices of the city and county to determine whether the tax load can be eased by creating surpluses in periods when the taxpayer can best afford to pay, and they ask for a "pay-as-you-go system" in every possible case.

The league also asks for publication a week in advance of the annual meeting of the Common Council and Board of Supervisors, seeks revision of the city charter, reassessment of property values for "equalizing inequalities," and for a "broader tax base," and asks for publication of changes in assessed valuations.

Also sought are rezoning and a planning commission, and "exposure of all hidden taxes, and an examination of classifications and pay rates of city employees, but safeguarding present grades, pay and pension rights."

The league also asks for "a look at the Board of Education's long-range building program," and noted that it may eventually "exceed \$6,000,000," and asked a study of the possibility of electing rather than appointing members of the board.

Advocating also in the program are more consistent use of city-owned property for functions of government, a continuing study of future appropriations, and that "an educational program aimed at resisting the encroachment of the socialistic welfare state into the domain of private enterprise be pursued."

Douglas Kinnear, of the Citizens Public Expenditure Survey, spoke on the amendments and propositions on the forthcoming election ballot. Citizens allow expenditure of extravagant sums by default, he said, and stressed that in Orange county less than half of the eligible voters, voted on the public housing propositions.

Because this pattern has been followed in the state, this "enormous expenditure" is on the books, although a majority of voters have not consented to it.

Finishes Seven Months  
New York, Oct. 18 (AP)—Last Friday Arthur Russell Janney finished seven months service on the federal jury that convicted the 11 Communist leaders of conspiracy. Yesterday, 66-year-old Janney said he has a summons to jury duty November 7 in New York's city court. On advice of an attorney, he said, he will notify the country clerk that "enough is enough."

To Try for Settlements  
Washington, Oct. 18 (AP)—Government labor officials decided today on big final bids in trying for voluntary settlements in the steel and coal strikes. It was strongly indicated that if Cyrus S.

## Broad Will Talk

partment and its relationship with other agencies.

Short addresses will be given by Harry F. Edinger, director of environmental sanitation; Esther A. Schla, R.N., director of public health nursing; Dr. Joseph B. Kearney, dental director; Blanche Armstrong, director of health education, and Mary R. Weber, office manager of the county health department.

The morning session is scheduled to begin at 10:30 a. m. A luncheon will be served by ladies of the Albany Avenue Baptist Church at 1 p. m., following which Mrs. Edgar M. Clarke, Jr., of Milton, president of the Public Health Nursing Committee, will lead a discussion on the functions of the local public health committee.

The meeting will adjourn in time for the committee members to attend the formal opening of the Ulster County Tumor Clinic at 2:30 p. m.

Officers of the county committee are Mrs. Clarke, president; Mrs. Alvin Nicholas of High Falls, first vice president; Mrs. William Warner of Hurley, second vice president; Mrs. Richard Overbush of Saugerties, secretary; Mrs. William McNamee of West Hurley, treasurer, and Mrs. Charles Walden, Jr., of Stone Ridge, editor of the bulletin.

Presidents of local public health nursing committees, of which there is one for each town in the county, are the following: Mrs. Genevieve Tinnie, Esopus; Mrs. G. A. Nussbaum, Hurley; Mrs. Reynolds Van Keuren, Kingston city; Mrs. B. W. Olin, Lloyd; Mrs. Alvin Nicholas, Marlborough; Mrs. Fred Woolsey, Marlborough; Mrs. Elting Clearwater, New Paltz; Mrs. Floyd Merrifield, Olive; Mrs. Wynne Courter, Plattekill; Miss Bailey, Rochester; Mrs. Reginald Every, Shandaken; Mrs. Anne McCormick, Saugerties; Mrs. DeWitt Crowell, Shagunk; Mrs. Stephen Garlick, Ulster; Mrs. Joseph Mary, Woodstock, and Mrs. E. G. Trumbull, Wawarsing.

Ching, the federal mediation service chief falls in the various moves he has planned for this week, he will turn the two big strike problems over to President Truman.

## Program . . .

Dr. Saul Ritchie, President-elect of the Ulster County Medical Society; Dr. William Dean, President of the Ulster-Greene Dental Society; Members of the Ulster County Board of Supervisors.

Former Mayors: Conrad J. Heiselman and William F. Ladelmuth; Senator Arthur H. Weeks and Thomas J. Plunkett, Captain Andrew S. Hickey (U.S.N. retired) president, Ulster County Chapter, American Cancer Society; Members of the Ulster County Board of Health: Harry Hulterson, architect for the Tumor Clinic, Representative of Mutual Construction Company, New York.

Presentation of the Tumor Clinic building and facilities to the Ulster County Board of Health by the County Board of Supervisors (Chairman Schantz, Chairman Ulster County Board of Supervisors).

Acceptance of the Tumor Clinic building and facilities, and delegating the direction of the Tumor Clinic to Dr. J. Spottswood Taylor, director, Dr. Frank B. Seeley, President, Ulster County Board of Health.

Acceptance of the responsibility of the Ulster County Board of Health and the promotion of its services to the public, Dr. J. Spottswood Taylor, director of the Tumor Clinic.

Benediction, the Rev. J. Dean Dykstra.

Inspection of the Tumor Clinic building and facilities by the public.

Boy, 7, Is Victim  
him free of the accidental nose and Carl Gleser, another neighbor, who rushed to aid them, carried him into the hospital.

The police report said the boy was near death when the patrolmen arrived and he was reported in serious condition when first admitted to the hospital.

About the Folks  
Mrs. Anna Kulach and Mrs. Mammie Hader of Ann's Beauty Shop have returned from Schenectady where they attended the Alcanists Hair Dressing show.

# Ulster County \$450,000 Tumor Clinic Model of Progressiveness

## Supervisors' Plan Becomes Reality For All Citizens

Ulster county this month opens the doors to a new era of immeasurable health resources when it officially begins the well-planned functions of its new, modernly equipped tumor clinic on city hall hill in Kingston.

The building with its invaluable equipment from the world of science will be a lasting monument to the foresight and progressive spirit of the county's Board of Supervisors, and it establishes Ulster among the top pioneer counties of the nation in public health.

Machines drawing from the infinitesimal power cores of radium and electricity will fight disease on a scale never before experienced in the region, and the war in this combat area will be fought from behind protective walls of lead.

The building is unique for a wide area beyond the county and as usual was the method used to make it a reality. It will be open for public inspection Thursday, Oct. 20, and that day will be a memorable one in the history of the county.

Dr. J. S. Taylor, director of the Kingston City Laboratory, who will also be in charge of the new clinic, explained recently that "the clinical activities will be directed by the Ulster County Medical Society."

In practically all instances where clinics are established, Dr. Taylor said, they are "not guided by a medical society in this way, and elsewhere the system is not as beneficial."

The first mention of the establishment of a cancer clinic for this community by a public official was made by former Mayor Conrad J. Edelman in his annual message to the Common Council on January 1, 1941, when he said: "An attempt was made last year to obtain passage of a state law which would authorize communities to establish cancer treatment clinics."

"Kingston is without facilities for deep X-ray cancer therapy which is so necessary in the treatment and cure of that dread disease, especially immediately after surgical treatment."

"Medical, hospital and public authorities should also join forces in attempting to provide such facilities for the cancer sufferers of this city and county."

Former Mayor William F. Edelman, in his annual message of January 1, 1946, in discussing the Kingston Laboratory, said:

"In anticipation of a tumor clinic the system of pathological records has been modernized so that these records might be promptly available to the clinic staff. The establishment of a tumor clinic in Kingston will be a great stimulus to the laboratory and in turn, the staff will be in a position to give invaluable services to the citizens of this community who might attend the clinic. A tumor clinic in Kingston is without doubt our greatest need in the field of public health. We can have one of the best diagnostic and treatment centers for cancer and allied diseases in the state right here in Kingston and we of the laboratory hope that all plans will be made with this as the objective."

Building and equipping the Tumor Clinic has meant the expenditure of approximately \$450,000. About one-third will be given toward the cost by the State Hospital Planning Commission from federal funds.

Fifty-eight physicians and 15 dentists of Ulster county approved by their respective societies have indicated their desire to participate in the clinical activities of the Tumor Clinic. Other official positions are: Dr. Ruth Guttman, Radiologist; Dr. Charles Miller, Radiologist; Dr. J. S. Taylor, Director. The chief concern of the doctors in promoting this clinic is that of raising the level of medical service, the application of time and study and the full realization of the needs of the cancer patient.

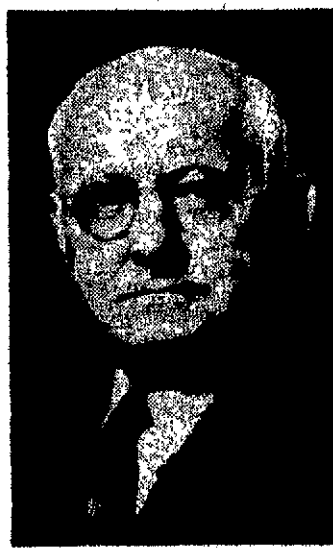

Members of the Ulster County Board of Supervisors: Levan H. Dean, Chairman; Henry M. Chmura, Esopus; Roy F. Denniston, Gardiner; George F. Armstrong, Hardenbergh; Elmer Vento, Hurley; Harry Hulsah, Kingston; Jacob J. Donovan, Lloyd; Harry Snyder, Marlborough; Cluett Schantz, Marlborough; Frank G. Elliott, New Paltz; Claude Brill, Olive; Harry D. Sutton, Plattekill; Howard C. Anderson, Rochester; Andrew J. Rogers, Saugerties; Jacob H. Rogers, Saugerties; David Avery, Shandaken; David Stewart, Shawangunk; Florence Boice, Ulster; William M. Kolb, Jr., Wawarsing; Kenneth Wilson, Woodstock.

City of Kingston: Albert N. Cook, Herman Rogers, Stanley J. Petro, Charles E. Smith, Jr., William Sinsabaugh, Ralph Williams, Raymond C. Schaefer, Fred J. Baker, Charles J. Messinger, James R. Robert F. Phinney, Harold C. Osterhout and Vincent J. Fallon.

Members of the Medical Advisory Board for the Tumor Clinic: Dr. F. E. O'Connor, chairman; Dr. Eugene F. Galvin, Dr. Frederick W. Holcomb, Dr. Joseph Jacobson, Dr. Robert F. Moseley, Dr. Harold L. Rakov, Dr. Saul Ritchie.

## Leaders Who Have Served And Will Serve Tumor Clinic

The following sums up the experience and general background of those who in various ways have served and will serve the clinic:

**The Rev. Dr. Frank B. Seeley**  
The Rev. Dr. Frank B. Seeley, president of the Ulster County Board of Health, has had a long career in promoting health services in the county. When the Tuberculosis Hospital opened in 1931, Dr. Seeley was elected vice president of the Board of Managers. Sam Bernstein, president of the board, died in 1935, and Dr. Seeley was then elected president of the board and served in that capacity until the creation of the County Health Department in January 1947. He then was elected president of the Ulster County Board of Health and is still serving in that capacity. Dr. Seeley has also been a member of the Board of Managers of the Kingston Hospital and the City Laboratory Board.

**Harry Snyder**  
Harry Snyder was born in Marlborough, attended high school in Kingston and also attended Cornell University. He has served the town of Marlborough as supervisor for the past 12 years. Shortly after becoming a member of the Board of Supervisors, he became interested and instrumental in promoting health activities in Ulster county. The first health service with which he was identified was the promotion of the establishment of the public health nursing committee throughout the county, serving as chairman of this committee until the activities were taken over by the Board of Health under the direction of the Ulster County Department of Health. Realizing the need for a broader program of health services, Mr. Snyder served as a Supervisor member of the Board of Health since its organization in 1947. For the past seven years Mr. Snyder has been the majority leader of the board and chairman of the Post-War Planning Committee. Seeing the growing need for medical facilities in this county, he in 1947 introduced a resolution at a meeting of the Board of Supervisors that tumor clinic be erected and equipped to meet the needs of the county.

**Dr. Francis E. O'Connor**  
Dr. Francis E. O'Connor, vice president of the Ulster County Board of Health, has been chairman of the Cancer Committee of the Ulster County Medical Society since its creation in 1941. He received his medical training at the University of Vermont and has been a member of the staff of the Benedictine Hospital since 1926. Dr. O'Connor was made a diplomate in the field of obstetrics and gynecology in 1935, and in 1936 became a Fellow of the American College of Surgeons. He now serves as chief of the Obstetrical and Gynecological Division of the Benedictine Hospital. Dr. O'Connor was elected as chairman of both the Medical Advisory Board and the Credentials Committee of the Tumor Clinic by the Ulster County Medical Society.

**Dr. Frederick Snyder**  
Dr. Frederick Snyder received his medical training at the University of Maryland and was made a Fellow in the American College of Surgeons in 1937. Dr. Snyder has been a member of many boards in serving the best interests of the city and county, since becoming a resident in 1910. He was the attending surgeon on the staff of the Benedictine Hospital for seven years and then be-

came attending surgeon on the staff of the Kingston Hospital, which position he still holds. He also serves in a consultant capacity on the staffs of the Veterans Hospital in Ellenville and Greene County Hospital in Catskill. He has served as police surgeon in the city of Kingston for 20 years.

**Dr. Snyder** was one of the main promoters in the building and equipping of the Ulster County Tuberculosis Hospital which opened in December of 1931. Due to his wide experience as surgeon, he has felt the growing need for better facilities for the treatment of cancer patients. This need has prompted Dr. Snyder to promote a program, which, with the cooperation of other lay and professional groups, has resulted in the Ulster County Tumor Clinic.

**Dr. J. S. Taylor**  
Dr. J. Spottiswood Taylor was born in Danbury, N. C., received his medical degree from Johns Hopkins in 1928 and served that institution as assistant pathologist from 1929-32. From 1932-34, Dr. Taylor was assistant director of the Auer Clinic and Laboratory, Pennsylvania Hospital. In 1934 he became director of the City Laboratory, Kingston, and in addition has been the director of the Ulster County Tumor Clinic for two years. Dr. Taylor is a member of the American Society of Clinical Pathologists and Bacteriologists and is a diplomate of the American Board of Pathologists in Pathology and Clinical Pathology.

**Dr. Taylor**, as director of the Laboratory, recognized the need for the provision of a Tumor Clinic with adequate diagnostic facilities for the citizens of Ulster county. The provision of such a clinic will enable many patients to receive early attention and at the same time give the local physicians an opportunity to work with cancer experts to increase their own understanding of the disease and increase their ability to recognize early recognition of symptoms and undertake the best possible course of treatment.

**Dr. Charles G. Miller**  
Dr. Charles G. Miller, born in Greensburg, Ind., received his medical training at the University of Indiana, graduating in 1936. He did his internship at San Diego County Hospital, Calif., and served as resident physician at Riverside County Hospital, Calif., in 1936-37. For 18 months he was fellow surgeon and gynecologist at the Lahey Clinic, Boston. Then following this experience, he became assistant resident fellow and resident surgeon at the Memorial Hospital, New York city. The three years following this period, Dr. Miller was made clinic assistant of the colon and rectal service at Memorial Hospital, and then he was promoted to St. Clare's Hospital, New York city and instructor at Polytechnic Post Graduate Hospital, New York city. Dr. Miller then became junior instructor of cancer diagnosis and treatment to Cornell and New York University students at Memorial Hospital and junior instructor of colon and rectal diseases at Polytechnic Post Graduate Hospital in 1944-46. Dr. Miller was made medical consultant of the Manhattan Engineering Project, Oak Ridge, Tenn., and served on the surgical staff of the Lawson General Hospital in 1945. Then, in 1946, he was made commanding officer at the Station Hospital, Borekneer Field, Puerto Rico.

**Dr. Miller** became a certified surgeon in 1948 and is a member

of the staff of surgeons at Memorial, and medical consultant to the Ulster County Tumor Clinic.

**Dr. Robert H. Broad**  
Dr. Robert H. Broad, Health Commissioner of Ulster County, received his medical training at Syracuse University. He received his Master degree in Public Health from Johns Hopkins University in 1930. Prior to coming to Ulster county he served the City of Binghamton as health officer. For five years he served as clinic physician and health officer for Cornell University. He also was employed as school physician and health officer for nine years in the city of Ithaca. Dr. Broad's first experience was in private practice in Groton, N. Y., for two years.

**Dr. Broad** as health commissioner realizes that cancer is one of the most prevalent public health problems. It is a disease that is curable in most instances if properly diagnosed in its early stages and prompt treatment administered. The Ulster County Tumor Clinic provides an opportunity for the public to receive the necessary diagnosis and adequate treatment. Dr. Broad is mindful of the importance of education of the lay public to the early symptoms of cancer, and the value of complete routine physical examination so the patient will seek medical attention early enough in the disease.

**Mrs. Harry Van Wageningen**  
In 1937 after retiring as director in the New York State Federation of Women's Clubs, Mrs. Harry Van Wageningen, Ulster county branch commander, American Cancer Society, was appointed to organize the Field Army of the American Cancer Society in the Third Judicial District. After serving 18 months in this capacity she was appointed New York State Field Army Commander. She held this office for ten years, gradually organizing county after county, until at the time of her retirement in August 1948 there were only six counties without a Field Army organization. She organized the first county branch of the New York State Division in Wayne county in 1946 and assisted in the organization of several other county branches including Ulster county.

In the spring of 1949 the New York State Division provided funds for the establishment of an office and information center in Kingston and Mrs. Van Wageningen became the executive director. From this office emanates the educational and service program. Nearly 500 volunteers have been appointed since the office was opened and a training school will be held for them in the near future. The executive director also served as the Ulster county campaign chairman in the 1949 Cancer drive.

**Dr. Ruth Guttman**  
Dr. Ruth Guttman, director of radiology, received her medical degree from Friedrich-Wilhelms University, Breslau, Germany. Her training in Radiology was received at the Nathan L. Langer Foundation from 1934 to 1938. In 1940 she joined the staff of Memorial Hospital, New York city, serving as a fellow until being made assistant Roentgenologist. Later she became associate Roentgenologist in charge of the X-ray therapy department at Memorial Hospital, serving in that capacity until her appointment as director of radiology for the Ulster County Tumor Clinic by the Ulster County Board of Health in February 1949. Dr. Guttman is a diplomate of the American board of radiology, including X-ray therapy, X-ray diagnosis and radium therapy. She is a member of the American College of Radiology, Radiological

Society of North America and the American Radium Society.

The staff of Memorial Hospital, New York city, has rendered valuable service in a consultative capacity in formulating plans for the construction of the Tumor Clinic building, the selection of medical equipment and a tentative program of operation.

**Dr. Hoeker Is Missed**  
The clinic has suffered a great loss in the untimely death in 1948 of Dr. Alfred F. Hoeker, radiologist and associate surgeon at Memorial Hospital, who gave unselfishly of his untiring efforts in the planning of this project.

**Dr. Hoeker** was born in Audubon, Iowa, received his medical training at the University of Louisville, Louisville, Kentucky, and served his internship at the Louisville City Hospital. In 1932-33 Dr. Miller was made a research fellow at Memorial Hospital and assistant attending surgeon in the treatment of cancer and allied diseases. He then was made associate Roentgenologist on the staff of the White Plains Hospital, New York, assistant Roentgenologist at New York Hospital, and consultant Oncologist at Cornwall Tumor Clinic, Cornwall Hospital, New York. Dr. Hoeker was made surgeon of the Otolaryngologist of the out-patient department of the New York Hospital, and assistant professor of Roentgenologist at Cornell University.

**Dr. Hoeker** was a fellow in the American College of Surgeons, the American Medical Association, the American College of Roentgenology and the American Roentgenologist Society.

## As Pegler Sees It

as to gentle him on that side he would ever praise his name and do as much for him some time. "Tommy said, 'Sure, what side are they on?' and Chuck said to me long afterward, 'I saw that honest, God-fearing, clean-living look in his eye and I said to myself, 'Chuckle, that type is not to be trusted.' So I said 'the left side' and he promised to act nice. The first two rounds he dropped a few pokes into the left side and I would win and screw up my face, but not quick enough. So, in the third he got me in a clinch and said, 'You have told me a falsehood and if there is anything I can't stand it is deceitfulness.' And with that he hit me one hell of a belt on the right side and I let out a yell and died. Never trust a man with that honest, God-fearing, home-loving look."

Want any books, ledge? I just got Ray Noble's compilation of picture-que political characters ranging from him whose name I never hear without strange emotional arousalment down to little old way-neck Hutton Summers, of Dallas, the only man in the U.S.A. with the courage to tip no more than ten per cent. I will send you that. Know any swear words? Sincerely,  
P.E.G.

## ADIRONDACK TRAILWAYS

With so many old and young unemployed, and ill people to be cared for out of taxes, the strain on the percentage able to pay will gradually increase. Finally some wag will say that never before did so few do so much for so many.

Wife—You needn't be so hotsy-totsy! I wasn't anxious to marry you. You know you asked me six times.

Husband—Yes, and then my luck gave out.

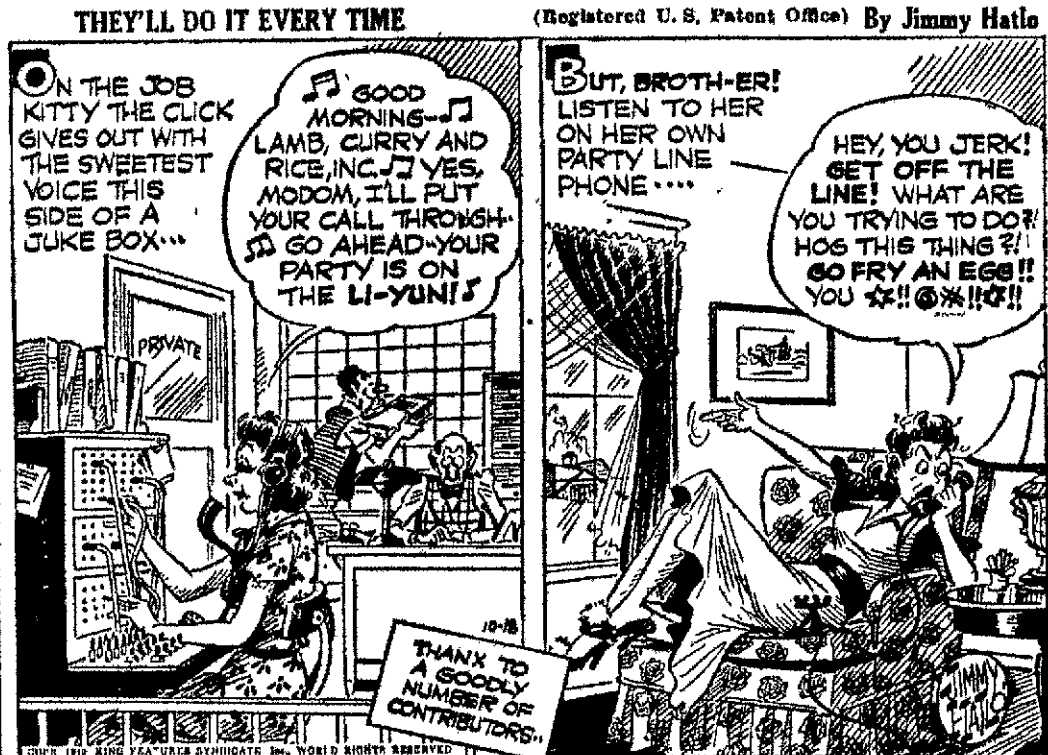

In the grimly-true words of the Vancouver Daily Province, "Sentiment obviously has vanished from the world trade picture. We are back in the hard old horse trading days and the sooner we catch on the better."

Woman—Oh, John, the baby has swallowed the yeast!

Husband—Umph! You were always predicting he was bound to rise.

Set an example for others to follow, and you will find it more effective than all your fault-finding or moralizing.

Friend—Your son is making good progress with his violin. He

is beginning to play quite well. Host—Do you really think so? We were so afraid that we merely had gotten used to it.

Mrs. Wiggins—My, but the price of food is going up! I wonder what we can do?

Mr. Wiggins—This would be a good time to go and make a visit with your folks.

Gentleman—Take your hand out of my pocket! Pickpocket—Excuse me! I'm absent minded. I used to have a pair of trousers exactly like yours.

"If a person will eat very slowly, his health will be much better," says a physician. Not in the case of a growing boy. If he ate slowly, he'd soon starve to death. —Kitchener, Ont. Can., Record

"I hope you don't mind—I can't afford models!"

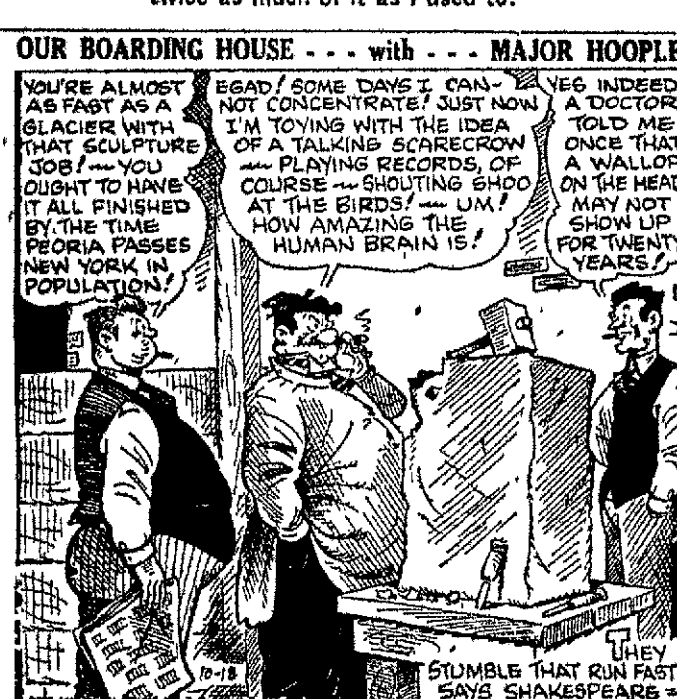

"Insufficient funds, eh? Well, why don't you fire some of the high-priced help around here?"

THE RECEIVING END

"Sure, Dad, I realize how important money is—I need twice as much of it as I used to!"

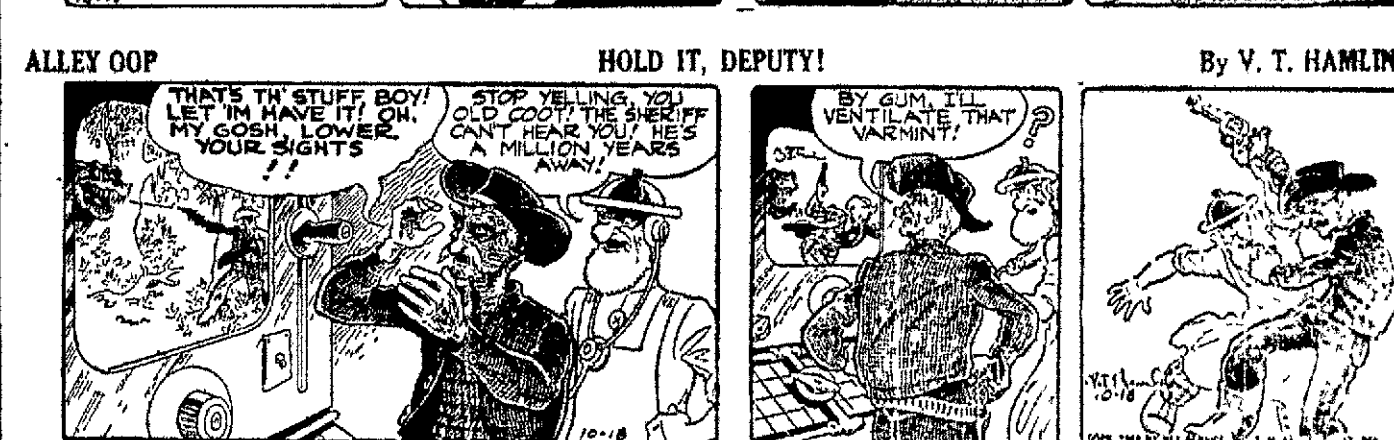

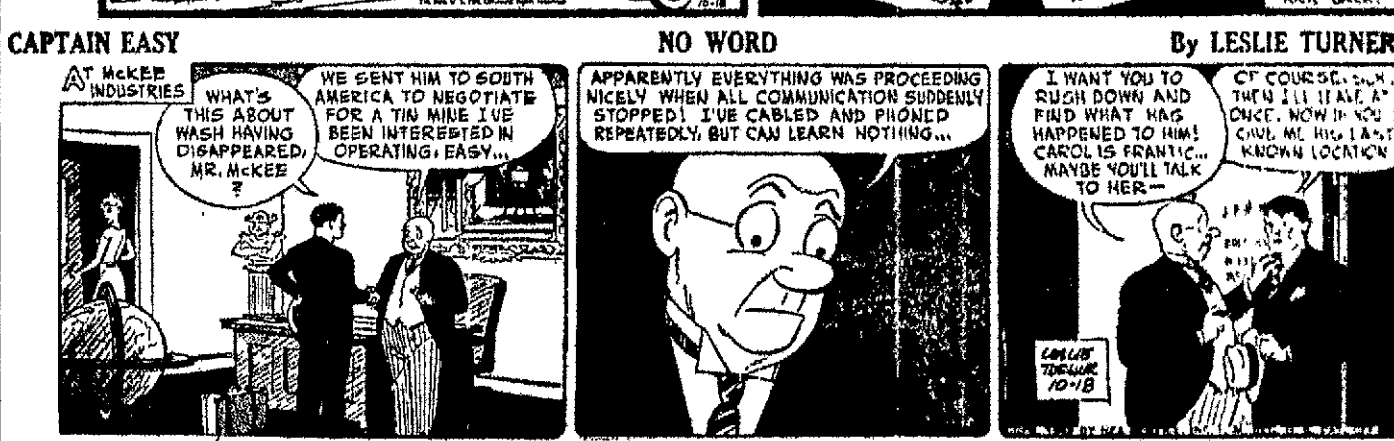

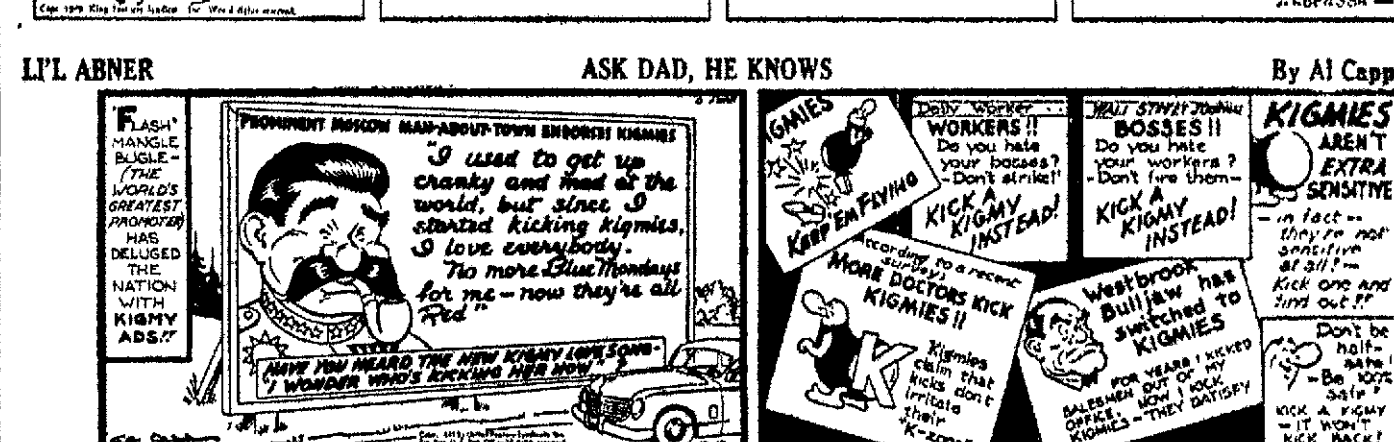

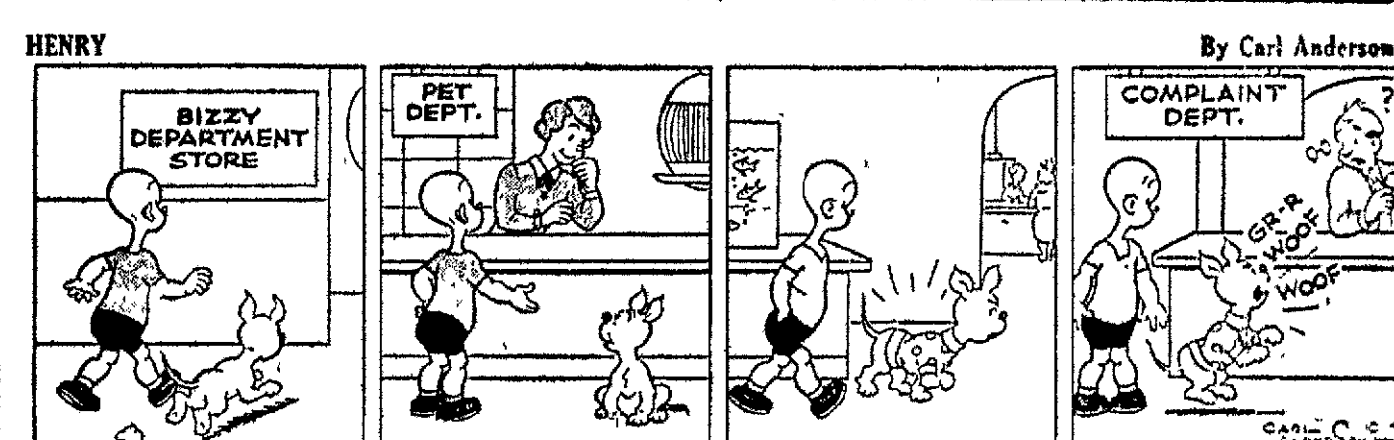

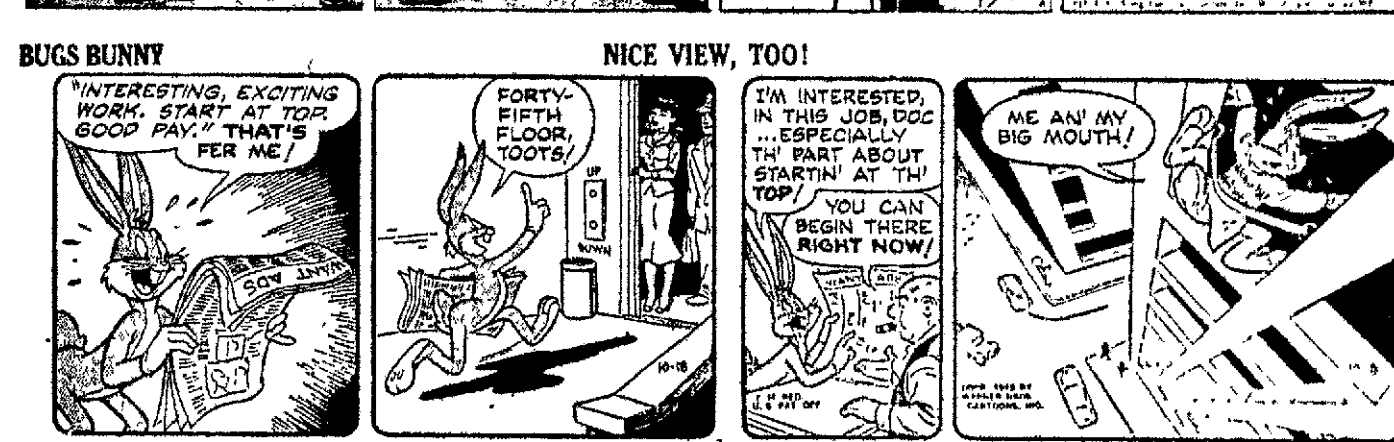

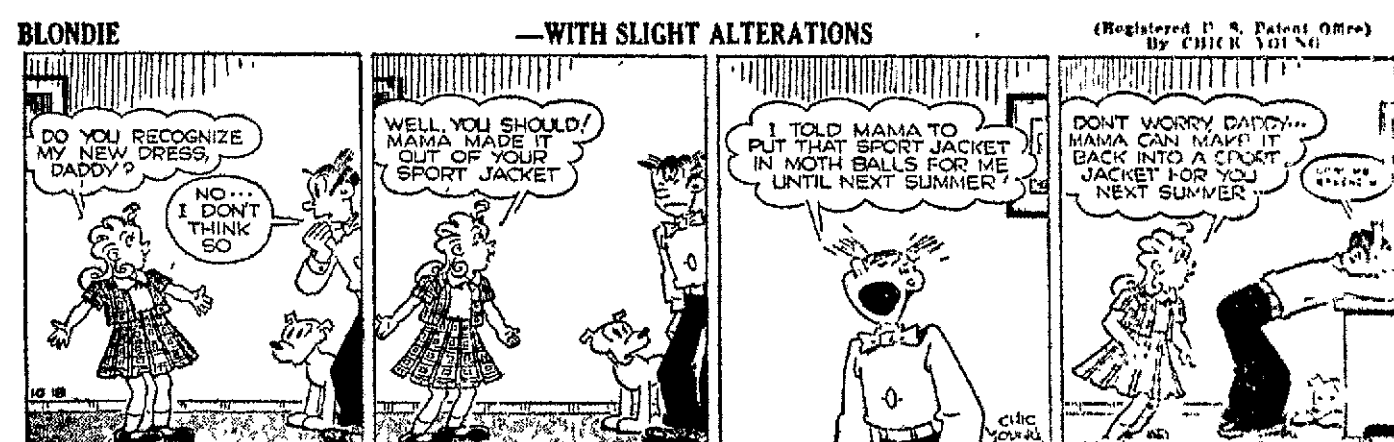

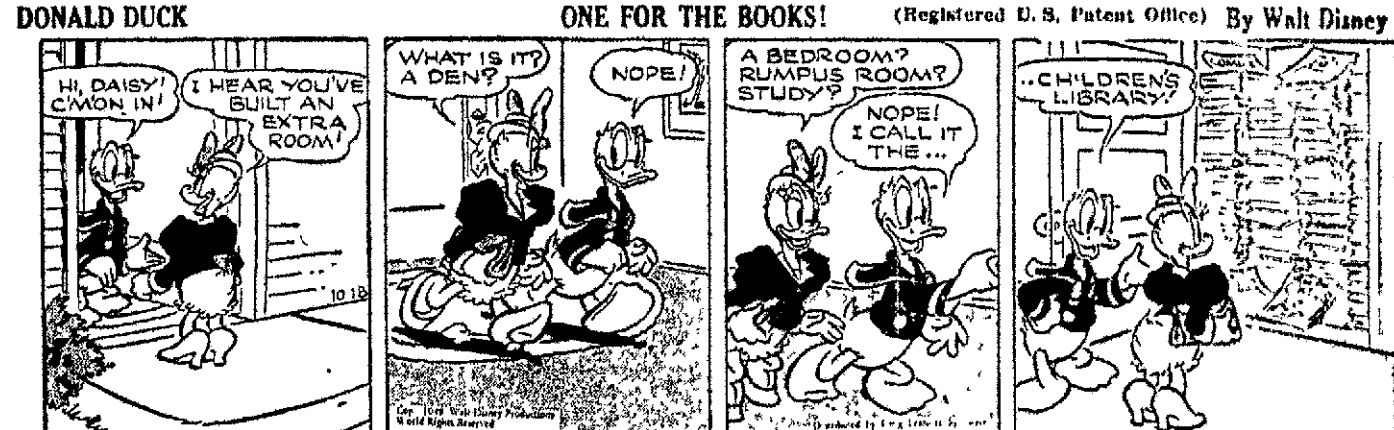

THEY STUMBLE THAT RUN FAST, SAYS SHAKESPEARE

HE HAD THE DOUGH WHEN HE CAME IN!

THEY STUMBLE THAT RUN FAST, SAYS SHAKESPEARE

THEY STUMBLE THAT RUN FAST, SAYS SHAKESPEARE

## Newkirk Opens

days before I came into office, I made an address to the people of the city of Kingston pointing out that we were facing municipal bankruptcy because of the refusal of the previous administration to do anything to solve our financial problems.

So serious was the situation that my first message to the Common Council on January 1, 1948, was devoted to a discussion of the finances of our city.

To understand the problems, let us review the background.

By a constitutional amendment effective on January 1, 1944, no city could raise in taxes, excluding debt service and some other items, more than two per cent of the average assessed valuation of real property for the immediate five-year period. This in brief is the two per cent limitation that you have heard so much about. It created a straight jacket on the amount a city could raise in taxes.

The preceding administration did nothing to solve the problem. It simply ignored its existence and went on as if the two per cent limitation was not there. The courts threw out as unconstitutional judgments were entered against the city by city employees for salaries due them, so that such expenditures might be included in a future budget rather than the current operating budget. This was unwound (unwinding) since it meant that in the future we were paying for a debt instead of for some current services.

Because they had not kept our financial house in order, the outgoing administration presented me with a deficit of \$40,000 at the time I took office.

Under our Charter the outgoing administration has the duty of preparing the budget for the following year. It prepared a budget that was almost \$200,000 in excess of the amount that we could raise under the two per cent limitation. It proposed a tax rate of \$48.68 per thousand. We were forced to make drastic cuts in the proposed budget, and finally constructed a budget that resulted in a 1948 tax rate of \$41.75.

Taxes are the lifeblood that sustains government. In return for your city taxes you secure police and fire protection the year round. You get streets and pavements. Your ashes, rubbish and garbage are removed. In the fall the leaves are removed from the streets and in the winter snow is taken up. You have parks and playgrounds.

Paying is essential to having. We must pay our teachers, firemen, policemen and other city employees. The alternative is to do the work ourselves. To get competent municipal employees we must pay prevailing wages too. Local taxes are the method of sharing these costs.

Salaries are the principal item in the City Budget and in all fairness city employees were entitled to receive increases to meet the rising cost of living.

You citizens in both the firemen's and policemen's referenda voted in favor of a better wage schedule for these departments. This vote by you was also a mandate to increase the salaries of other city employees, including those in the Department of Public Works.

We were confronted with the problem of finding the money to pay for these increased salaries and costs. In a period when every-

thing costs more, government, which buys materials and pays salaries, must pay more for everything too.

Increased revenues could be derived from so called nuisance taxes, such as the City of Poughkeepsie resorted to. We did not desire to resort to this expedient. We decided upon across the board percentage increase of all real property assessments. All properties under the law are supposed to be assessed at 100 per cent of their value, or for the price at which they will sell under ordinary circumstances. The reason why the City of Kingston could not operate under the 2 per cent limitation was because properties were being assessed at so small a fraction of their true value.

Assessments could have been raised by reassessing each particular parcel. This method would have taken a long period of time and cost about \$40,000 in saving at new unit land values and depreciated construction cost on each of the some 10,000 parcels of land in the City of Kingston. It was a case of emergency and I do not pretend that the method used was the most equitable method in all cases.

The Democratic opposition is now saying that the city administration tried to fool the people into thinking that raising assessments would have no effect upon taxes.

The Kingston Daily Freeman on June 7, 1948 quoted me as saying:

"Kingston's financial needs have increased many fold. Pay-rolls are larger and in addition there have been cost-of-living bonuses paid. Also, the demands upon every municipal depart-

ment have increased, and the Board of Education is contemplating enlarging and modernizing school facilities. We have also embarked upon an extensive program to reconstruct many of the city's streets."

Does that sound like concealment of the fact that more money was needed to pay the increased costs of city government? I did say that increasing assessments would lower the tax rate. This was no misstatement. I pointed out that industries settling in a new community are influenced by the tax rate. I said too that the City would benefit in the equalization rate, or in its share of State Taxes and the cost of county government. The new state equalization table for Ulster County benefits the City of Kingston because of the fact that assessments were raised in 1948.

In another statement appearing in the Kingston Daily Freeman of June 10, 1948, I said in part:

"Increasing assessments will lower the tax rates. For example, assuming that the same amount of money is to be raised, a one third increase in assessments would lower the tax rate, and taxpayers would pay the same amount of taxes."

The opposition now fear this sentence out of its context and distort this example given by me as an act of subterfuge and concealment on my part.

What I was pointing out was that assessments and the tax rate bear a proportionate relationship. The important factor is what is the total amount of taxes to be raised. Let us take a simple example by looking at our school tax bills for the past two years. A property owner whose property was assessed for \$3,000 in 1948 would be assessed in 1949 for \$4,000 after the general one third increase in assessments. In 1948 he paid school taxes at a rate of \$20.68 per thousand on his three thousand dollar assessment, or in the amount of \$62.04. In 1949 he paid school taxes at the rate of \$15.28 on his four thousand dollar assessment, or in the amount of \$61.12. In other words he paid ninety-two cents less in 1949 because the total amount of the school budget in 1949 was slightly less. This proves that increasing assessments does not mean more money is paid in taxes. The crux of the whole matter is just how much is to be raised in taxes.

In 1949 a taxpayer paid more in general taxes than 1948 because the total amount that had to be raised to meet the increased costs of city government were more. Let us take again the taxpayer whose assessment was raised from \$3,000 to \$4,000. In 1948 he paid taxes at the rate

of \$41.78 on his three thousand dollar assessment, or in the amount of \$125.28. In 1949 he paid taxes at the rate of \$38.52 on a four thousand dollar assessment, or in the amount of \$154.08. This was an increase of \$28.80 and was this taxpayer's share of the cost of increased wages, of increased bond payments and other costs.

The amount to be raised in taxes in 1949 was determined by the 1949 budget. While the Democratic members of the Common Council did not vote for this budget for political reasons, they did not point out one single item that should have been eliminated from that budget.

You might ask just why taxes were more in 1949. I presented an answer to this question in my message to the Common Council on January just of this year. The principal increases in 1949 arose from the following increased expenditures over 1948:

|                                                                                                                                         |           |
|-----------------------------------------------------------------------------------------------------------------------------------------|-----------|
| Debt service or the payment of bonds issued in previous years                                                                           | \$ 56,000 |
| County charges—the city pays a part of the county government and in 1949 a large item in the County budget was for the new Tumor Clinic | 88,000    |
| Snow removal                                                                                                                            | 15,000    |
| Police Department wages (the large increase in this Budget came in 1948 as a result of the referendum in 1947)                          | 3,000     |
| Fire Department Wages                                                                                                                   | 27,000    |
| Public Works Department City Official's salaries                                                                                        | 4,250     |
| Pension assessments                                                                                                                     | 6,000     |

Total increase over 1948 ..... \$226,500

For every \$32,000 raised by the city of Kingston your tax bill is increased by \$1.00 a thousand. Approximately \$7 per thousand had to be paid in 1949 because of the above increases totaling \$226,500. An examination of these items shows that they could not be eliminated and could not be cut from our 1949 budget. A large part of them are not included within the two per cent limitation and were payable regardless of whether or not the tax base was broadened.

I have been ever mindful of the tax burden on our citizens. Federal income taxes have increased many fold from what was paid in 1941 and today take a substantial part of the income of all of our citizens.

A problem that confronted me was the constant demand for new city services. Every time the city performs a new service, more money is needed in taxes. This point should be considered by all of our citizens whenever they want the city to perform some new service.

I have tonight presented you

with many of the facts with regard to our finances. This is the season when some people make empty promises without any expectation of their fulfillment. When the Democrats say that taxes are too high, ask them what services they intend to eliminate. An informed public opinion is the greatest bulwark of our democracy. With these facts before you as outlined by me tonight, I am sure that you the people of the city of Kingston will be in a better position to understand the true situation with regard to municipal finances.

## McKenney on Bridge

## Losing Lone King Was a Wise Move

By WILLIAM E. MCKENNEY  
America's Card Authority  
Written for NBA Service

How many times, when a hand is over, does your partner say, "If I could have guessed that finesse," or "If I could have dropped that king, I would have made the contract."

Believe it or not, today's hand was played in a recent national championship event. Several North-South pairs made five-odd, losing only two heart tricks, because declarer played safe by going up with dummy's ace of clubs, dropping the singleton king.

At several other tables declarer went down two tricks, but the prize set was as follows: East opened the nine of diamonds, which declarer won with the king. The queen of clubs was led and the finesse taken. West winning. Back came another diamond which declarer ruffed with the deuce of spades. East over-ruffed with the nine-spot and returned a club which West ruffed with the three of spades. The eight of hearts was won by East with the queen, another club was returned and West ruffed with the six of spades. West led the five of hearts, East won with the ace and returned another heart. Declarer carelessly ruffed this with dummy's four of spades and West over-ruffed with the eight-spot. A diamond came back, North trumped with the seven of spades—East over-ruffed with the jack.

Thus East and West took eight of the first nine tricks, setting the contract five tricks.

Crowing Hen Lays Eggs

Fairbury, Neb. (AP)—On the Adolph Schlerkolk farm near Fairbury a bird had a comb and wattles like a rooster. It also crowed. But its body resembled that of a hen and it was known to have laid eggs.

## Tremper Elected To Hospital Board; Former Alderman

JACOB H. TREMPER  
Jacob H. Tremper, 20 Burgevin street, was elected a trustee of the Kingston Hospital Board of Managers at its meeting last night to fill the unexpired term of Fabian L. Russell of Saugerties, who resigned.

The new trustee is a former alderman of the second ward and is engaged in the insurance business at 42 Main street.

Trustee Richard Kalish, who was assigned to make the October inspection tour of the hospital, gave his report and Trustee Frank Matthews was assigned to make the November inspection.

It was announced that work was started on the remodeling of the main hospital building and the nurses' home.

Uranium in Seawater  
Seawater contains uranium. The amount is small, ranging from one millionth of a gram in a quart of water to half again that much. Uranium increases with depth.

## Precautionary Measures

European plague doctors of the 18th century wore huge nose guards to stave off the disease-ridden air, and carried sticks with which to feel the patient's pulse.

## STOPS LAXATIVES—FEELS BETTER!

"Have been eating KELLOGG'S ALL-BRAN 3 years and it's wonderful! Now I don't ever need a laxative, feel so much better. I've told plenty of others too!"  
Mrs. Jerry Russell, Route 3, Maryville, Tenn. Many other grateful ALL-BRAN users write the same. You may be helped, too, if constipated due to lack of bulk in the diet; start eating an ounce of crisp, toasty ALL-BRAN daily, drink plenty of water. If not satisfied after 10 days, send empty box to Kellogg's, Battle Creek, Mich. DOUBLE YOUR MONEY BACK!

### William E. Casal, Local Salesman, Marries Miss Snyder

Mr. and Mrs. Orville F. Snyder of 162 Ulster avenue, Saugerties, announce the marriage of their daughter, Miss Dorothy Mae Snyder, to William E. Casal, 90 Highland avenue, this city, son of Mrs. Aurelia Casal, Brooklyn, and the late Benjamin Casal. The double ring ceremony was performed by the Rev. Henry E. Hendegren at St. Peter's Church, 2:30 p. m., October 9.

Miss Anne Goldrick was organist. The altar was decorated with white pompons.

Mr. Snyder escorted his daughter. She wore a gown of white satin made with fitted bodice and skirt in train. The neckline of the gown was trimmed with sections of not embroidered with seed pearls. Her illusion veil was attached to a braid of net also

trimmed with seed pearls. She carried a shower bouquet of white roses.

Mr. Henry Schaefer of Saugerties, as matron of honor for her sister, wore a dusty pink satin gown with matching mitts, and matching hair of pink net. She carried pink Rapture roses.

Paquiel Casal of Brooklyn was his brother's best man. Ushers were Joseph Casal of Brooklyn, another brother, and Franklin Snyder, Saugerties, brother of the bride.

A reception for the immediate families was held at the home of the bride's parents, after which the couple left for a wedding trip to Niagara Falls and Canada. For traveling she chose a gray gabardine suit with black accessories and a white rose corsage. They will live at 94 Tubby street.

Mrs. Casal is a graduate of Saugerties High School and Brady Maternity Hospital and Infant Home of Albany.

Her husband attended schools in Brooklyn and served five years in the army. He was overseas in Europe. Mr. Casal is a salesman for M. Reine.

Joan M. Farrell, Donald T. Gardner Wed in Saugerties

St. Mary's Church at Saugerties was the setting for the marriage Sunday at 2 p. m. of Miss Joan M. Farrell, daughter of Mr. and Mrs. Harold L. Farrell, 43 Montgomery street, Saugerties, to Donald T. Gardner, son of Mr. and Mrs. George Gardner, 16 Mill street, Saugerties. The double ring ceremony was performed by the Rev. Raymond Hyland, assistant pastor.

Miss Anne Thornton was organist. Mrs. Minnie Johnson sang Ave Maria, Rosary and Heart of Jesus. The altar was decorated with white pompons.

The bride was escorted by her father. She wore a white satin gown made with Peter Pan lace collar embellished with seed pearls, buttons down the front of the bodice to the waistline, long pointed sleeves and full skirt in train. Her shoulder length veil was attached to a bonnet headpiece. She carried white gladioli.

Miss Pearl McManus of Saugerties as maid of honor wore a mauve satin gown with matching headpiece and carried yellow gladioli and lavender pompons.

Raymond Charles Saugerties, was best man. Ushers were Barry Brice and Louis Pulicastro, both of Saugerties.

A reception for about 165 guests was held at Pleasant Valley Inn, Glenrie. Mr. and Mrs. Gardner left for wedding trip to Niagara Falls and Canada. For traveling she wore a navy blue dress coat and accessories and a white gladioli corsage. Upon their return they will live on Montgomery street, Saugerties.

The bride is a graduate of St. Mary's Parochial School and Saugerties High School. She is typist for the Ulster County Welfare Department.

Mr. Gardner was graduated from Saugerties High School and is employed by The Commercial and Lumber Company.

Kerhonkson Girl Scouts Plan Benefit Dance

The third annual Halloween Dance for the benefit of the Kerhonkson Girl Scouts will be held at the fire hall Saturday evening. Music will be by The Commodores.

## School Girl Fashions Modeled at St. James Choir Show

From left to right popular fashions for the school girl this winter in brilliant scarlet; the ensemble of dark brown plaid skirt with gold shoulder bag; and the new casual tweed coat. (Freeman Photos)

## Styles for Fall and Winter Feature Plaids, Luxurious Materials, as Modeled in Show

Plaids for sports and casual wear and taffetas, satins and velvets, oftentimes combined, for dress wear were among the features in the fall fashion show at the St. James Methodist Church Monday night. The show was sponsored by the Sanctuary Choir and was arranged informally around the scene of an 18th, 19th and 20th century tea party.

The show opened with a group of models in clothes of the 18th and 19th century, the women with bustle style, dresses, brocade satins, taffetas, jet beading for decoration, lace, many style whims, recognizable in today's fashions. Hats were bonnet types trimmed with ostrich plumes. The men wore swallow tail coats, stiff collars and bow ties or cravats in bright colors. Special note was made of the silver tea service and china from Safford and Scudder.

Safford and Scudder also furnished the jewelry for the costumes. Bracelets with heart or clover dangles, sparkling necklaces set with rhinestones in clear, aqua, rose colors, scatter pins in novelty shapes such as bicycles, gold necklaces worn with sweaters, pearls and many other types of earrings and costume jewelry, were shown.

Hats from the Carl Millinery, for the most part were small hats fitting snugly to the head contour. Some were bright velvets with veiling, others were felt trimmed with feathers.

Accessories, the short proper white gloves, gloves to match costumes, bags of leather and cloth fabrics, were from The Wonderly Co. Shoes were modeled from Rowe's.

All garments were from Montgomery Ward and Co. Men's suits and topcoats with hats were exhibited by A. W. Mollott.

Evelyn Dolson was commentator for the show. They wore modeled play dress and play suit and later appeared in party clothes and the inevitable snow suits, both the play dress and party dress had matching panties. The young boy, size five, wore a long pants all wool gabardine suit for the party.

Plaids in brilliant colors predominated the casual dresses. Some chose a plaid blouse with striped skirt trimmed at the hemline with the plaid. Many showed the new shirred back skirt and the huge patch pockets. Pinwale

corduroy was used for skirts, jumpers, jackets and skirts in many colors.

A fine two piece dress of beige gabardine was trimmed with elephant gray along the flange shoulders which in turn was narrowly edged with bright green.

Another wool beige two piece dress trimmed with brown boasted a second skirt of the brown color, the two skirt suit. Dressy skirts in taffeta with peplums, embellished with velvet were shown and in the other extreme bright plaid lumberjackets and gabardine slacks.

Double lapels and double pockets were new details for the suits. Many suits showed button trimming, one exhibited a row of self color buttons all along the peplum edge at the back of the jacket. For the most part party jackets showed fullness in the form of slight or exaggerated peplums.

Delft blue, a soft slate blue, was announced as the latest color, both for men and women. One of the men modeled a delft blue three button business suit of all wool menswear with fine stripes with which he later wore a Knicker herringbone top coat and grey Mallory hat. The other model wore beige wool gabardine suit with lower lapel line, a worsted texture top coat and tan Dobbs hat, Fifth Avenue.

For dress a novelty bengaline was made with spots throughout the material and trimmed with rhinestone jewelry. A forest green taffeta dress sprinkled with velvet dots showed the latest Queen Anne portrait collar which stands up around the neckline. An aqua bengaline dress had a standup collar and pockets which were quilted, another detail for the fall and winter dresses.

A black taffeta dress with jacket was ready for business and later dancing with the jacket removed to show an evening gown. In the new short length, Rose beige baby satin and grey satin were outstanding in the expensive dressy looking styles.

Coats for the most part featured the zip in lining either of wool or fur. All were exquisitely lined with satin. A varied color chart is available in the new coats and even the tweeds come forth for the school girl.

A goodly group of inexpensive furs and some in the highest price brackets delighted the audience. Mouton lamb was still the most serviceable coat although others of squirrel lock sable-dyed flanks and

twilight grey dyed muskrat were declared to be beautiful but delicate for handling.

The show closed with a display of robes. Chenille is popular, washable and much more reasonable than last season. A candlewick chenille robe which was priced at \$7.98 is sold for \$4.98 this year. Miss Dolson remarked. A satin quilted nylon blue robe priced at \$12.98 last year is \$7.98 this season. The shorty type robe was shown as well as the most delicate rayon taffeta in aqua color trimmed with a delicate pink binding and sash.

Models were Dolores Fatum, Douglas Constant, Beatrice Johnson, Charles Fatum, Ann Thomas, Richard Constant, Marlene Caslin, Mary Jane Smith, Marie Wale, Doris Heavest, Elaine Van Vleet, Evelyn Gedney, Mildred Moffatt, Louise Welby, Thyrna DuBois, Louise Guttridge, Catherine Newell, the Misses, Kenneth Riehl, Odell Black, Julian Gifford, Jerome Kemmerer, Viola Babcock, William Babcock, William Taylor, Robert Hudley, also Dr. Julian Gifford and Robert Fatum.

Those taking part in the old fashioned tea scene included Mr. and Mrs. James Guttridge, Mrs. Robert Culler, Mrs. Harold Bunting, Mr. and Mrs. S. Maxwell Taylor, Miss Dolores Reina, Leroy Davis, and Mrs. Francis Johnson.

St. Peter's Bazaar Will Be Next Week

Among the many plans for the year in which St. Peter's Parish Club will participate is the annual bazaar to be held Thursday, Friday and Saturday, October 27 through 29.

Plans also are being made for the club's New Year's Eve party so well attended last year. Members of the parish are invited to attend Parish Club meetings Wednesday evenings at 8 o'clock. A short business session is usually followed by mixed bowling on the school alleys.

take part in the traditional investiture Thursday is Miss Rose Marie Succoman, daughter of Mr. and Mrs. Anthony G. Succoman of 582 Broadway.

Daniel Barnhart of Stone Ridge, a junior at New York State College of Agriculture, attended the national older rural youth conference at Jackson, N.Y., last week. He was one of two delegates representing the Cornell 4-H Extension Club.

Donald F. Burger, E.N., U.S.N., spent the week-end at the home of his parents, Mr. and Mrs. Fred Burger of Hudson street. He had with him as his guest, Jose B. Al Lanagotte of New Mexico.

Personal Notes

Anthony Lavatsch of 51 Summer street is celebrating his 93rd birthday today.

Mr. and Mrs. Richard Scherer, 203 Abbot street, announce the birth of a son, Kenneth Richard, born October 16 at Benedictine Hospital. Mrs. Scherer is the former Miss Alice Costello of the Saugerties Road.

Mr. and Mrs. Anthony DeCicco, 137 Cedar street, Frank DeCicco and daughter, Mary Angela, of Catskill, are motoring to Dallas, Tex., to visit their sister, Mrs. Michael Abdallah, and family. Mrs. Teresa Mayone of Glens is going with them as far as Washington, D. C., where she will visit her brother, Joseph DeCicco and family.

## Cottekill Woman Has 90th Birthday

MRS. JOHN M. SHORT

Mrs. John M. Short celebrated her 90th birthday Saturday, October 8, at her home in Cottekill. The following day, Mrs. Short's daughter, Miss Anna Short of Pocomtoco Hills, her sons, Harry Short of Greenfield, Mass., Alanson H. Short, Port Jervis, Albert Short of Cottekill, and their wives, her grandchildren, great grandchildren, relatives and friends gathered at her home for a family party.

Mrs. Short has five children, 35 grandchildren and 20 great grandchildren. She is active for her age, takes care of her home, crochets, enjoys reading and cares for many house plants. She is a charter member of the Ladies Aid Society of the Cottekill Reformed Church and until recent years was active in church work. She received three birthday cakes, gifts of money and other remembrances from her family and relatives.

Guests assisting in the birthday celebration were present from Massachusetts, Pennsylvania, Roughkeepsie, Kingston and Port Jervis.

Card Parties

Business Girls at Y.W.

The Business and Professional Women's Club of the Y.W.C.A. will hold its dessert card party and bazaar to be held Thursday, Friday and Saturday, October 27 through 29.

Plans also are being made for the club's New Year's Eve party so well attended last year. Members of the parish are invited to attend Parish Club meetings Wednesday evenings at 8 o'clock. A short business session is usually followed by mixed bowling on the school alleys.

take part in the traditional investiture Thursday is Miss Rose Marie Succoman, daughter of Mr. and Mrs. Anthony G. Succoman of 582 Broadway.

Daniel Barnhart of Stone Ridge, a junior at New York State College of Agriculture, attended the national older rural youth conference at Jackson, N.Y., last week. He was one of two delegates representing the Cornell 4-H Extension Club.

Donald F. Burger, E.N., U.S.N., spent the week-end at the home of his parents, Mr. and Mrs. Fred Burger of Hudson street. He had with him as his guest, Jose B. Al Lanagotte of New Mexico.

Personal Notes

Anthony Lavatsch of 51 Summer street is celebrating his 93rd birthday today.

Mr. and Mrs. Richard Scherer, 203 Abbot street, announce the birth of a son, Kenneth Richard, born October 16 at Benedictine Hospital. Mrs. Scherer is the former Miss Alice Costello of the Saugerties Road.

Mr. and Mrs. Anthony DeCicco, 137 Cedar street, Frank DeCicco and daughter, Mary Angela, of Catskill, are motoring to Dallas, Tex., to visit their sister, Mrs. Michael Abdallah, and family. Mrs. Teresa Mayone of Glens is going with them as far as Washington, D. C., where she will visit her brother, Joseph DeCicco and family.

## HOME BUREAU

The flower arrangement class of the Kingston Home Bureau Unit will be held Thursday after-noon, October 20, at 2 p. m. at 410 Broadway with Mrs. Joseph J. Maggino, demonstrating flower arrangements. An invitation is extended to anyone interested.

## ALUMINUM

by JAMES H. WINTERS

One of the most important changes in piano construction is the introduction of Aluminum alloy in the making of piano plates. Winters & Company, one of the largest manufacturers of pianos, have pioneered this improvement. The plate is the metal frame which holds the tension of all the strings and must be very strong. This new Aluminum alloy, made by the Aluminum Corporation of America for Winters & Company, tests far stronger than the cast iron plate that has been in general use. Another advantage of the Aluminum plate is the big saving in weight. The new Winters & Company pianos are considerably lighter than those of other makes of the same size making them easier to move out to clean behind them or to change the position in the room.

We have several of these lovely new instruments in stock, one especially good looking case in maple. Winters & Company has long been known for its integrity in manufacture using the best of materials. One feature always seems to stand out especially in these instruments and that is their finish. A detail only piano tuners would notice and that is the good quality and firmness of the Winters & Company pinblocks. Winters & Company, a good name to keep in mind when shopping for pianos.

## Good Taste Today

By Emily Post

(Author of "Etiquette," "Children Are People," etc.)

## DO AS OTHERS WANT TO

A business woman writes: "I work in an office with 10 other girls and for the past few years we have given Christmas presents to our employers. (There are two of them.) They have never given us gifts of any kind nor even sent us greeting cards. I maintain that it is not correct to give them presents, but a majority of the other girls disagree with me. Will you please give me your opinion?"

Since it is the feeling and the custom of the office that you continue, it is surely not up to you to change it.

## Eating Oysters

Dear Mrs. Post: When eating raw oysters from the shell and the oyster is too large to put into the mouth whole, what type of knife, or fork, should be used to cut the oyster, and should it be cut before releasing from the shell? (2) What about shrimp (served in a cocktail glass) that are too large to put into the mouth without cutting?

Answer: (1) You are expected to eat it whole or cut it with a tiny fork and nothing else. (2) I have never seen a shrimp too big for a mouthful.

## Returning Gifts

Dear Mrs. Post: After the engagement has been broken and the ring returned, must all the other presents given to me by him for Christmas, birthdays, etc., be returned? The one item that concerns me most is a set of luggage given to me last Christmas with the idea in mind that I would have it to take on my wedding trip. But I have used some of it. I also received a number of small gifts of jewelry—none of them of great value but neither are they cheap. What do I do about these?

Answer: Ask him what he would like you to do. Do what he suggests—without discussion!

## Knives, of Course

Dear Mrs. Post: If no knives are needed at a luncheon, should they be put on the table anyway? That is, is a table setting incomplete without them?

Answer: Yes, there must be a knife and a fork at each place no matter what you are having. In short, this makes a "place."

Many readers have asked questions about announcing the engagement and the engagement ring. Mrs. Post gives helpful advice in her leaflet, "Announcing the Engagement."

To obtain a copy, send 5 cents in coin and a stamped self-addressed envelope to her, c/o The Kingston Daily Freeman, P.O. Box 99, Station G, New York 10, N. Y. Mrs. Post is sorry she cannot answer personal mail.

(Released by The Bell Syndicate, Inc.)

## Equity Action Is Heard in Court

An action in equity brought by Amelia Bidgman against Rosalia Pollinger, involving title to property at Glenorio Lake Park, was taken up for trial in Supreme Court Monday before Justice Donald S. Taylor without a jury. The parties are sisters and a claim of fraud was presented. Joseph M. Campbell appeared for plaintiff and William J. Lane for defendant. At the conclusion of the testimony Justice Taylor reserved decision.

A jury was then taken in a negligence action brought by Frank Giannattasio against William Ross involving damages to a car in an accident which took place in southern Ulster. Raymond C. Banta appears as attorney of record for plaintiff and James A. Doherty for defendant.

## Marriage Announced

MR. AND MRS. RICHARD W. BARRENGER (C. J. Kelly Photo)

## Amelia Burns Wed To Richard Barrenger, Teacher at Red Hook

Mr. and Mrs. John Burns, Jr., 322 Foxhall avenue, announce the marriage of their daughter, Miss Amelia Catherine Burns, to Richard W. Barrenger, son of Mr. and Mrs. Everett Barrenger, Cottickill. The ceremony was performed October 9 at 2:30 p. m. in St. Mary's Church, by the Rev. Edward Farrelly.

Theodore Riccobono was organist. Miss Patricia Keefe sang "Angels and Ave Maria." The bride was escorted by her father. She wore a white satin gown with circular train. Her illusion veil was held in place by a tiara of pearls and rhinestones. She carried a bouquet of white roses and pampas.

Miss Ellen Burns was maid of honor for her twin sister. She wore a tulle gown with matching mits and a polka bonnet trimmed with matching plumes. She carried a bouquet of tall-tower roses.

Leslie Barrenger was his brother's best man. Ushers were Ronald Burns and Robert Burns, brothers of the bride.

Following the ceremony, a reception for 100 guests was held at the Mannershor Hall. Afterward Mr. and Mrs. Barrenger left for a wedding trip to Philadelphia. She wore a wine suit with black accessories and a corsage of yellow roses. They will reside in Red Hook.

The bride was graduated from the Academy of St. Ursula and Moran Business School. Mr. Barrenger was graduated from New Paltz High School and now Paltz State Teachers College. He is a teacher at the Red Hook Central School. He served three and a half years in the Army Air Force.

## William Haver Marries Jayne Van Wagenen At Wedding in Fair Street Reformed Church

(Kinkade and Hutton Photo)  
The wedding of Miss V. Jayne Van Wagenen, 94 Roosevelt avenue, daughter of the late Mr. and Mrs. Martin D. Van Wagenen, to William F. Haver, son of Mr. and Mrs. Burton L. Haver, 85 Mountain View avenue, took place Sunday at 4 p. m. in the Fair Street Reformed Church. The Rev. J. Dean Dykstra, pastor; and the Rev. Ernest Palen, pastor of the Middle Collegiate Church, New York, officiated at the double ring ceremony.

Mrs. W. S. Eltinge was organist and Miss Barbara Hayer as soloist sang "Because and The Lord's Prayer." The church was decorated with white, yellow and gold bronze mums, palms and candles. The bride was given in marriage by her brother, Daniel E. Van Wagenen. She wore a Regal wedding gown of ivory satin made with off-shoulder neckline encircled by a beaded sheer yoke fitted bodice, and five gore bouffant skirt which terminated in a short train. Her fingertip illusion veil was attached to a Juliet cap. She carried an ivory satin prayer book with white orchid.

Mrs. Stephen A. Nekos, sister of the bridegroom as matron of honor, wore a chateau velvet gown, matching tulle of braids, and carried a chateau velvet muf covered with bronze mums. The other bride attendants were Miss Deborah Van Wagenen, niece of the bride, Mrs. Raymond Herriek, Miss Teresa Carr, Miss Virginia Winsor of New Paltz, and Mrs. Robert Matthews. They wore emerald green velvet gowns with matching braided tulle and carried emerald green muffs covered with yellow mums.

Richard K. Wood was best man. Ushers were Stephan Nekos, brother-in-law of the bridegroom, Raymond Herriek, Robert Matthews and Harry Karelman. A reception was held at Hotel Staynesant for 60 guests. Mr. and Mrs. Haver left for a wedding trip to the Midwest. She wore a forest green suit with forest green accessories, white blouse, and white orchid corsage. Upon their return they will live at 517 Washington avenue.

The bride and bridegroom are graduates of Kingston High School. Mrs. Haver is employed by William Ryalance and Sons, Inc. Mr. Haver attended Bard College and served in the Air Forces for one and a half years. He is employed by the New York Telephone Co.

## Retrial Is Scheduled

Lake George, N. Y., Oct. 18 (AP)—Retrial of John G. Finn, 24, of Stamford, Conn., is scheduled to begin Monday in Warren county court. Finn is accused of assaulting Reva Roznek, a short time before the 25-year-old New York city nurse was found drowned in Lake George Aug. 1, 1947. Finn was convicted in June, 1948, of second degree assault, and was sentenced to serve from two and a half to five years.

**Oldest Map**  
A clay tablet unearthed in ruins 200 miles north of the site of Babylon and now preserved at Harvard University, is believed to be the oldest map in the world.

MRS. WILLIAM F. HAVER

## VICTIM OF TRAGEDY

Robert James Elliott (above), 10, was killed in Los Angeles by his 15-year-old brother, Richard, police said, when an old-fashioned gun he was showing him went off, wounding James in the head. Richard couldn't stand to see him suffer, and, according to Police Lieut. E. Ream, he shot him again and killed him. (A.P. Wire photo)

## State Teachers College News

New Paltz, Oct. 18 — Student enrollment at the college has increased 14.4 per cent over last year, it has been revealed by Dr. William J. Haggerty, president. Seven hundred and 77 students registered for the fall semester of 1949-50 including 274 freshmen. Two hundred and 17 sophomores, 156 juniors and 122 seniors also registered. There has been an increase of 15.2 per cent in the registration of male students. Veteran enrollment has dropped. It is expected that on completion of the dormitory will make possible an enrollment of slightly over 1,000 next fall.

Lorin Campbell, director of athletics and recreation at the college, officiated at the recent Port Jervis-Kingston game in Kingston. Melvin Rizzo of Syracuse University will direct the audio-visual program at the college in a new field of education.

Exchange students at the college are Lilla Vivo, Cuba; Nguyen Van Link, Indo-China; Soho Nishinura, Japan; and Gisela Neuhäuser, Brazil.

Dr. William Haggerty addressed a recent assembly on the topic of the life of a teacher.

The New Paltz Chapter of United World Federalists met Tuesday night when plans for the year were discussed.

The International Relations Club met recently at the Agonian Sorority house where a film and filmstrips on the United Nations were shown. Plans for a special United Nations program on Oct. 24 are being made with the assistance of Mr. Hogan, director of the U.N. Center on the campus.

# Larry Estep, 405-Pound Hillbilly Heads Sheehan Fund Wrestling

New Mat Freak in Local Debut Tonight

Elmer "Fatty" Estep, giant 405-pound Arkansas hillbilly, who is rated as the most colorful wrestling character since Man Mountain Dean came rolling down from the Tennessee hills, is the featured performer on the Bill Sheehan Home Fund wrestling headliner tonight at the municipal auditorium.

Estep is matched against Ivan Kamiroff, the Russian strong man, who polished off Baron Michelle Leone on the last card.

The Sheehan Home Fund will receive thirty per cent of the gross receipts. The local committee which is seeking to raise sufficient funds to furnish a home for the World War II paraplegic has been conducting a ticket sale during the week and the season's largest crowd is expected.

Promoter Bill Johnston will introduce two newcomers to the Kingston auditorium. One is Mike Kolinos, Syracuse veteran and the other is Freddie Carone, a new Italian importation.

The 30-minute semi-final attraction pairs two popular performers in Steve Kanas, the body scissors expert of Detroit, and Harry "Boston Bad Man" Finkelstein.

Kolinos makes his local debut against the squat Abe Coleman of New York, who ranks with Baron Leone as a crowd pleaser.

Carone will go in the 30-minute curtain raiser against Fred "The Doctor" Kimball of California.

Although an advance sale of tickets has been conducted, reservations can still be made by calling the Tommy Malnes Sport Shop, 3089-J.

**WRESTLING TONITE**  
KINGSTON MUNICIPAL AUDITORIUM  
8:00 P. M.  
ELMER (405 lbs.) ESTEP (Arkansas Hillbilly)

vs.  
IVAN KAMIROFF (Mr. N.Y.O. 1941)

KANAS vs. FINKELSTEIN  
KOLINOS vs. COLEMAN  
BARON vs. KIMBALL  
Prices: \$1.00, \$1.50, \$2.00  
Box: Kingston 3089-J, after 6 p. m.

Tickets on sale at T. Malnes Sport Shop, 360 Broadway, Kingston. Proceeds for the Sheehan Home Fund (World War II Paraplegic)

## Bowling

George Shufeldt and Don Peterson shared honors in the Bowlorium Mixed League Sunday, the former blasting high triple of 568 with 167-201-200, while Peterson rallied after modest scores of 136 and 153 to bash a rousing 245, high solo for the night.

Hank Grube was only two pins off the pace with 203-566, while Percy Slover finished with 222 and 549. Jake Francis tied that triple with a high of 199.

Other high scores included Angelo Ferraro's 208-542; Lou Misasi 536; Don Peterson 534; John MacLellan 400-529; Tony Albany 529; Evelyn Gross 204-528, high for females; Joe Russo 528; J. Cashara 523; Evelyn Francis 519; A. Wohlfort 519; Adam Thiel 517; J. McGrane 513; Claude Markie 514; T. Yonta 213-504; Jim Pruden 501; Ernie Magnusson 500.

Johnny Ferraro and S. Levy fashioned the only "500" triples in the Bowlorium Mixed. The Ace pounded out 178-233-171-582, while Levy reeled off 185-169-180-534.

Pete Nagy rolled 221-492; Joe Bright, J. Bonicase and J. Bach told each had 482, while Lou Sevelto knocked off 481. Len Freer fashioned 469.

Stacking games of 187, 221 and 202, Bob Schneider of the Stone Ridge Pioneers set a new individual triple record of 610 in last night's session of the City Minor League at the Bowlorium. His heavy pinning enabled the Firemen to sweep three games from the powerful Mannie's Barber squad.

F. Pavlick posted 518, Harry Sevelto 515 and Jerry Ausanio 510 in the same match. Elsewhere in the loop, I. Brown tossed 210; Pete Nagy 232-574 and T. Amato 500. Joe Dulin southpawed 212-541; Otto Schuller Jr. 223-553; Jack Haulenbeck 503; N. Savino 518; Ralph Mayone 206-571; Bud Evans 528; F. Devine 501.

John Bartsch Sr. and Howard Minard tied for high triple honors in the Y International with 524 triples, the only five hundreds recorded in the loop.

Bartsch was consistent with 175-178-171, while Minard reeled off 198-184-142-524. Phalen hit 472; C. Gildersleeve 451; and N. MacDaniel 208-431.

Stacking games of 187, 221 and 202, Bob Schneider of the Stone Ridge Pioneers set a new individual triple record of 610 in last night's session of the City Minor League at the Bowlorium. His heavy pinning enabled the Firemen to sweep three games from the powerful Mannie's Barber squad.

F. Pavlick posted 518, Harry Sevelto 515 and Jerry Ausanio 510 in the same match. Elsewhere in the loop, I. Brown tossed 210; Pete Nagy 232-574 and T. Amato 500. Joe Dulin southpawed 212-541; Otto Schuller Jr. 223-553; Jack Haulenbeck 503; N. Savino 518; Ralph Mayone 206-571; Bud Evans 528; F. Devine 501.

John Bartsch Sr. and Howard Minard tied for high triple honors in the Y International with 524 triples, the only five hundreds recorded in the loop.

Bartsch was consistent with 175-178-171, while Minard reeled off 198-184-142-524. Phalen hit 472; C. Gildersleeve 451; and N. MacDaniel 208-431.

**Bowling**  
George Shufeldt and Don Peterson shared honors in the Bowlorium Mixed League Sunday, the former blasting high triple of 568 with 167-201-200, while Peterson rallied after modest scores of 136 and 153 to bash a rousing 245, high solo for the night.

Hank Grube was only two pins off the pace with 203-566, while Percy Slover finished with 222 and 549. Jake Francis tied that triple with a high of 199.

Other high scores included Angelo Ferraro's 208-542; Lou Misasi 536; Don Peterson 534; John MacLellan 400-529; Tony Albany 529; Evelyn Gross 204-528, high for females; Joe Russo 528; J. Cashara 523; Evelyn Francis 519; A. Wohlfort 519; Adam Thiel 517; J. McGrane 513; Claude Markie 514; T. Yonta 213-504; Jim Pruden 501; Ernie Magnusson 500.

Johnny Ferraro and S. Levy fashioned the only "500" triples in the Bowlorium Mixed. The Ace pounded out 178-233-171-582, while Levy reeled off 185-169-180-534.

Pete Nagy rolled 221-492; Joe Bright, J. Bonicase and J. Bach told each had 482, while Lou Sevelto knocked off 481. Len Freer fashioned 469.

## Dr. Holcomb Urges All to Vote 'Yes' on No. 7 Amendment

In a statement informing voters on Amendment No. 7, which will appear on the ballot at the general election, Nov. 8, Dr. Frederic W. Holcomb, chairman of the Ulster County State Citizens Committee for the NYC Hospital Bond Issue, said today that New York city residents will bear the entire cost of the hospital construction program being authorized by the amendment.

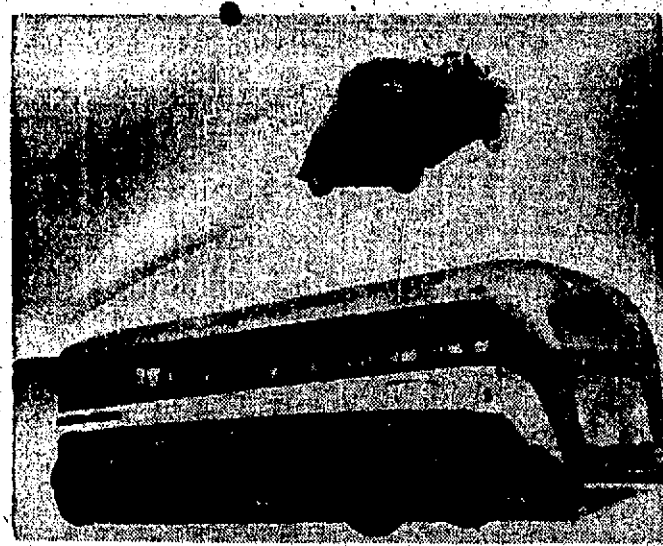

The citizens committee is a non-partisan group of city and state agencies organized to inform voters of Amendment No. 7. The amendment, if approved by the voters, will permit New York city to raise \$50,000,000 outside its constitutional debt limit for the purpose of financing an urgently needed hospital expansion and improvement program. Whitthrop W. Aldrich, New York banker and chairman of the board of the State Charities Aid Association, is general chairman of the state-wide committee supporting the amendment. Local members serving with Dr. Holcomb on this committee from the Ulster County Tuberculosis and Health Association are Dr. Henry L. Blabby, Kingston; E. Gordon Janson, Ellenville; and Robert L. Russell, Saugerties.

"We cannot emphasize too strongly," said Dr. Holcomb, "that by voting for this amendment, any New Yorker outside New York city will be doing a service for his city neighbors without involving a cent of his own money. The hospital construction funds will be raised in New York city alone. No other area or community in the state will be financially affected by this program."

While no opposition to the amendment is now evident, the local chairman of the citizens committee asserted that "lack of interest or misunderstanding of the measure by voters may well result in its defeat by default." Dr. Holcomb said the committee is promoting interest and understanding in Amendment No. 7 in this area.

Cedars of Lebanon are closely related to cedars in the Atlas Mountains of North Africa and other cedars in the Himalayas, but are different from American cedars.

## In 9W Attraction

The stunt of jumping a stock car over a transcontinental-sized bus—the long way—and crash landing into seven parked cars, will be attempted at the Walter Reed 9W Drive-In Theatre nightly October 18, 19 and 20, at 8 p. m., weather permitting, according to Jack Hamilton, theatre manager. The jumps will be made by Peter Grant, 29, of 140 Henry street, a member of Ward Beam's Auto Thrill Shows.

## Empire Markets Managers Discuss Expansion Plans

At a recent dinner meeting held by Empire Markets for their managers and supervisors at the Hotel Van Curler in Schenectady, the huge expansion and modernization program that has been in progress during the past year was discussed.

Included in the Empire Markets program of recent months was the opening of three new markets and the complete modernization of five markets.

The program for the coming year includes two new markets and the continuation of the remodeling of markets. The locations of the new markets will be at Crane street, Schenectady and the other on Central avenue in Albany.

At this meeting plans also were made for the company's 38th anniversary celebration.

## Hunters Cautioned To Have Canines Given Rabies Shots

With the pleasant season scheduled to open Friday, October 21, the Ulster County Health Department today advised owners of hunting dogs to have their dogs immunized against rabies prior to that date.

Dogs taken into the field during the hunting season stand a good chance of coming into contact with wild animals, Health Department officials said, and for that reason immunization will be a protection for the dog, the hunter, the hunter's family and domestic livestock.

Following is the schedule of remaining free clinics sponsored by the Health Department for immunization of dogs against rabies:

Today, Tuesday, October 18 (7 to 9 p. m.)

Kidd's Garage, Rifton.  
Post Office, Waverling.  
Vince Edmond's Garage, New Brunswick.

Wednesday, October 19 (7 to 9 p. m.)

Metacahonts Hall, Metacahonts.

Thursday, October 20 (7 to 8 p. m.)

Police Department Garage, Kingston.

Friday, October 21 (7 to 9 p. m.)

Reagan's Hotel, Malden.

Texas Cotton Crop

The average annual cotton crop of Texas is so large that its value approaches the total value of the production of gold, silver, zinc, lead and copper mines in the United States.

The present Library of Congress building, Washington, represents an investment of between eight and nine million dollars.

## Veterans Need Not Write on Extra Compensation Due

Local veterans receiving compensation for war incurred injuries need not write on visit VA claiming compensation increases recently authorized by Congress, Jack Dehanty, local Veterans Administration official said today.

Dehanty said the increased payments, effective December 1, 1949, will be made on the basis of information now in VA claims files and no action by veterans is required.

The compensation increases are authorized by Public Law 339, signed by the President last week. The law provides:

1. Additional compensation for veterans with dependents if the veteran is 50 per cent or more disabled. Previously, additional compensation went only to veterans 60 per cent or more disabled.

2. An increase in compensation for veterans "presumed" to be disabled as the result of service to bring their rates up to those paid veterans whose disabilities are determined directly service connected.

3. A 100 per cent disability rating for veterans with arrested tuberculosis for two years after the disease is arrested and a 50 per cent rating for the following four years. The law also requires veterans with arrested tuberculosis to submit to periodic examinations and follow prescribed treatments or risk a cut in their disability ratings.

4. An increase in death compensation to wartime widows with one or more children.

5. A liberalization of rules barring compensation for injuries sustained while under military confinement. Compensation for such injuries is now possible if the veteran's disability was not the result of his own willful misconduct and if he did not get an unremitted dishonorable discharge or, if disabled during civil confinement, did not commit a felony.

6. An 87 per cent across the board increase in compensation for all World War 2 veterans with service connected disabilities and World War 1 veterans whose disabilities have been determined by V.A. to be directly service connected.

Dehanty said the general increase will result in veterans who are 10 per cent disabled getting \$15 a month instead of the \$13.80 they now get, a 100 per cent disabled veteran getting \$150 a month instead of \$138, and veterans with disabilities incurred in peacetime service getting increases because peacetime rates are 80 per cent of the wartime rates which are going up.

Aaron Bahl of 27 Spring street and Jack Shierhold of 455 Washington avenue have filed a partnership certificate with the county clerk stating they are doing business at 17 Broadway under the name of Anlay Sales.

Peter Vire De Mungula of Route 1, Box 15-H, Kingston, has filed a certificate with the county clerk stating he is doing business at 104 North Front street under the name and style of Pierre's Restaurant.

## THE RUMINATOR

A Column of Contrary Opinion

By HUMPHREY B. NEILL

You are doubtless having a difficult time, as I am, to think your way through the vast confusion that has arisen from the devaluation of foreign currencies and the strikes in this country.

An onlooker naturally wonders how individual companies look upon these extraordinary developments.

A stockholders' report came to hand a few days ago that deserves commendation for its clarity, and its evident wish to keep stockholders informed as intelligently as possible.

The report is from the Joy Manufacturing Company, of Pittsburgh, manufacturers of mining machinery.

Interestingly enough, the Joy organization is faced with both of these events. Devaluation has affected its large foreign business, and of course the coal mining shut-downs hit home.

President J. D. A. Morrow brings out in his brief report that there are two sides to these questions.

He points out, for example, how work stops in coal mining even though wide-awake manufacturers of mining machinery. Lay-offs and strikes, Mr. Morrow states, "make imperative the widest possible application throughout our industry of the most advanced labor-saving machinery possible."

Few of us stop to recall the interruptions in coal mining over the past few months. Just there was the "memorial holiday" of two weeks in March. Then came the regular ten-day miners' vacation in July. This was followed by the three-day work-week set for the bituminous mines east of the Mississippi. And finally, of course, the complete shut-down (except certain anthracite mines).

This illustrates forward "frantic" efforts toward "economic controls" of the coal mining industry. Like all attempts at regimented controls of economics they are sure to back-fire in time. From a competitive viewpoint, these actions of John L. Lewis are a tremendous boost to the oil industry.

From the laborers' standpoint, these work stoppages obviously stimulate to Mr. Morrow's statement, "the widest application of labor-saving machinery."

The Joy company has been right on top of the problem, apparently, and its engineering department for years has been designing "strikingly advanced" mining equipment. Joy is now introducing conveyor and special machines and conveyor looks forward to a rising demand, tempered in some degree by the doubts that

have been created in the minds of prospective customers by the events of the past six months. However, Joy believes these doubts will shortly pass and sales again increase when "the evidence of surpassing competitive performance become more and more compelling."

This I think gives us a significant picture of business thinking in a free enterprise.

The foreign problems of Joy have been equally intense, apparently.

Three years ago the company began building up wholly-owned subsidiaries abroad to expand sales outside the United States.

It wasn't long evidently before the management realized that monetary troubles would shortly confront their operations. "For some time," Mr. Morrow reports, "we have maintained precautionary hedges against losses in current accounts that might result from devaluation of foreign currencies. These measures proved adequate when devaluation occurred."

Space does not permit a full recital of the steps taken to protect its foreign trade. However, devaluation has aided business of the foreign subsidiaries, while temporarily hurting business of the domestic plants. But because Joy has established operating plants abroad, the company is now in a position to expand the business of its subsidiaries which, it is expected, will take up the slack of lost business of the parent company.

It seems to me that this story of Joy Manufacturing Company is an outstanding example of the initiative and forward thinking of American free enterprise. You will never make the Ruminator believe that any state-owned enterprise can ever compete with the ingenuity and resourcefulness that is inspired by the incentives of the capitalist system as practiced in these United States.

## Preview of Winter Blankets Montana

(By The Associated Press)

A swirling white preview of winter blanketed five-foot snow drifts in Montana today and dipped temperatures in the Rocky Mountains area as low as 12 degrees.

The windy snowfall was in contrast to the pleasant autumn weather which prevailed over most of the eastern half of the country.

North winds, recorded at 55-m.p.h. speed in top gusts, piled the snow which fell mainly on the eastern slopes of the Northern Rockies and in the northwest plains area adjacent. The actual fall ranged from six inches at Cut Bank, Mont., and five inches in Yellowstone National Park to approximately one inch in most of the area.

No emergency conditions were caused by the storm, authorities said. The early morning minimum of 12 degrees above zero was reported at Cut Bank. The mercury was under the freezing mark at most Montana points.

Rain fell on the fringes of the snow area—in northwestern Utah and southern Wyoming.

A heavy pall of fog and smoke developed early today over the Chicago area, causing a number of accidents on streets and highways.

Ten airliners carrying some 200 passengers circled over the city at dawn, waiting for sunrise and a breeze to clear runways of the airports.

**Lincoln's Face**

The face of Abraham Lincoln, sculptured into the rock of Mount Rushmore in the Black Hills, is so large that a man could stand erect in an eye.

**LEGAL NOTICE**

The Laws & Rules Committee of the Common Council will conduct a Public Hearing on October 25, 1949, 7:30 p. m. in the Common Council Chamber, City Hall, Kingston, New York, relative to the proposed City Planning Commission for the City of Kingston.

Executrix.

## EPSIE KINARD PICKS OVERSEAS DESIGNS

Fall fashions from Britain sport traditionally fine tailoring, designs that cater to U. S. tastes. A slim skirted black serge suit flaunts a lively plaid muffler that gets cinched in at the waist (left). Angled stripes point up pockets and collar of brown and beige worsted dress and jacket ensemble (center). Stripes again for the suit (right) blouse and silver worked in vertical lines on the jacket, horizontally on skirt.

New York—(NEA)—Designed to make an American take back her words if she says that British fashions are stodgy are four London-designed collections of ready-to-wear made for the U. S. A.

Combining fine British woollens and good London tailoring—"so good" American fashion critics are saying, "that they could be worn inside out"—these imported coats, suits and dresses make a real contribution to U. S. fashions.

London designers have catered to U. S. tastes for snappy styling and bright novelty woollens. In creating ready-to-wear for a wide U. S. distribution, designers have bowed to American steam heating in their use of lightweight woollens.

By EPSIE KINARD  
NEA Fashion Editor

Although termed "ready-to-wear," British methods of creating mass-produced clothes involve enough handwork and individual treatment to warrant calling these exports "custom-made" fashions. Despite the amount of custom work they have and the duty that's tacked on, the price of these imports is less than many "home-grown" fashions of comparable quality and style.

Typical styling is seen in a dress and jacket ensemble of brown and beige striped worsted. Designed by Martita of London, the stripes are angled to give shoulders and pockets of the dress

unusual treatment. Stripes are also angled to point up pockets and collar of a matching fitted jacket trimmed with brown wool and self-covered buttons.

Another that reflects Martita's talents is one of bordered novelty worsted of bronze and silver stripes. For this, stripes are angled vertically at the sides of the jacket to make it more slimming. Stripes go in the opposite direction on a skirt that's given easy movement by back pleats.

A detachable plaid scarf of black, white and red wool, which crosses a shoulder and tucks under the belt of a lightweight, black serge suit speaks for the fashion flare of Frederick Starke, another designer of the London model house group.

## October Milk Price Estimated at \$4.20

New York, Oct. 18—A uniform price of \$4.20 per hundredweight will be paid to dairy farmers for their October deliveries to approved plants in the six-state New York milkshed, according to a forecast released here today by Dr. C. J. Banford, market administrator of the New York metropolitan

area.

At the same time he estimated that the producer's buttermilk differential for October would be 5.6 cents for each tenth of a pound of fat above or below the 3.5 percent standard.

The price forecast, Dr. Banford said, is based on an estimated production for the month of 512 million pounds. This would mean an average of 339 pounds a day by the estimated 48,700 producers in the milkshed.

Handlers must submit reports to the administrator on the use

made of their milk receipts for October not later than November 10. Using these reports, the administrator will compute and announce the actual uniform price and buttermilk differential for October not later than November 14. Handlers must then make payments to their producers not later than November 25.

An ironworks was established in New Jersey about 1874, and was the first one outside of New England.

## Sarah Churchill And Photographer Join in Marriage

Sea Island, Ga., Oct. 18 (AP)—A slender English actress with a long ancestry, Sarah Churchill, will be married here today to Anthony Beauchamp, British photographer.

34-year-old daughter of Britain's wartime prime minister, Winston Churchill, and Beauchamp made their announcement yesterday.

They stood amid the ruins of a monument to England's past glories, old Fort Frederica, and told newsmen that this was the climax to a week-long secret engagement.

Both said their parents had been informed and approved.

In fact, added Beauchamp, a specialist in portraits, he called on his prospective father-in-law before coming to America three weeks ago and received his permission to propose.

Both said they planned to pursue their separate careers after marriage.

Miss Churchill has made plans to appear in "The Philadelphia Story" on a west coast tour this fall. Beauchamp has a portrait show scheduled to open in New York next month.

In any case, the marriage will bring together the children of two artists, one very active, the other retired.

Statesman Churchill long ago became famous for the diligence with which he pursued his hobby of landscape painting, armed with brush and oils and armored in a smock and broad-brimmed hat.

Beauchamp's father, Ernest Entwistle, is retired. His mother, said Beauchamp, was a miniature artist until she took up portrait photography two years after he died.

Somewhat wryly, Beauchamp observed that his mother is now his "chief competitor."

For an engagement pledge, Beauchamp presented Miss Churchill a ring of 18th-century French design set with a large heart-shaped diamond and surrounded by nine smaller ones.

They planned to marry at 5:30 p. m. at the home of Alfred Jones, board chairman of the Sea Island Co., which runs this resort land of warm breezes, rolling surf and moss hung oaks.

Miss Churchill and the 32-year-old Beauchamp both knew each other before the war but became fast friends only 18 months ago when she sat for a portrait.

Both declared they "fell in love" with old Fort Frederica and asked that their first pictures together be taken there.

Miss Churchill couldn't have picked a better spot. Her presence in the sun lit but still dank old fortress, jammed up the ghosts of England's past.

Hero Gen. Edward Oglethorpe beat off in 1742 the last Spanish effort to reconquer America.

And that was just 38 years after her famed ancestor, John Churchill, first duke of Marlborough, had with Spanish aid defeated the armies of French monarch, Louis IV at Blenheim in Bavaria.

This will be a second marriage for Miss Churchill. She was married to Vic Oliver in December, 1936. They were divorced Oct. 15, 1945.

## Woman Is Held For Grand Jury on Assault Charge

Emmaline Cotman, 24, of Canal street, who was arrested yesterday on a second degree assault charge, was held for the grand jury when she appeared today before City Judge Raymond J. Mine.

Fenton Peebles, 39, of Albany avenue extension, charged that the woman had stabbed him with a pocket knife in the right thigh Saturday night on Canal street, and the police said they learned later that four other men were cut less seriously in their attempts to prevent the stabbing.

Peebles was taken to Kingston Hospital for treatment and statements were taken from him later by the police.

Officers William Hanley and Louis Sapp, Jr., were sent to the scene following the report Saturday, but the woman, whose name was given first as Emmaline Colman, was not arrested until yesterday afternoon when she was apprehended by Detectives Clarence Brophy and William Krum.

## IRELAND BOUND

M/Sgt. James Parker of Alderson, W. Va., packs a bag at Wiesbaden, Germany, in preparation for flight to Shannon, Ireland. There he will visit his wife, Mrs. Darinka Parker, and their son, born earlier in the day in a trans-Atlantic plane en route from New York to Shannon. (A.P. Photo by radio from Frankfurt)

## Five Are Killed Off Provincetown In Airplane Crash

Provincetown, Mass., Oct. 18 (AP)—A small chartered plane plunged into the sea off this town at the tip of Cape Cod yesterday taking the lives of three adults and possibly two babies.

The dead were identified as Pilot Daniel Lacey, 26, of Westwood, Mrs. Harold Keppel, about 30, wife of a New York Times photo-engraver, and Mrs. Edward S. Davis, about 40, of Provincetown.

Mrs. Keppel's two children, Paul, 2½, and Bruce, about one year, were listed as missing.

The bodies were recovered by the Coast Guard cutter Acushnet about four miles off Race Point. The Coast Guard resumed search for the babies early today—but doubted they would be found alive.

The plane—a Piper Clipper,

was flying the 45-mile over-water route from Boston to Provincetown when the pilot radioed he was in trouble.

The craft was about 10 minutes from its destination at the time. Planes of the Cape Cod Flying Service, operators of the clipper, spotted survivors in the sea shortly after the pilot sent a message indicating he was going into the water.

The single-engined craft apparently sank upon hitting the water.

**A NEW SUIT SETS YOU UP!**

To feel your best you should be able to look your best.

That is the reason, in spite of the comfort and hominess of old (mostly worn-out) clothes, men seek always to maintain a wardrobe of good appearing quick changes in sports clothes and carefully selected suits which enables them to dress in good taste regardless of the unexpectedness of the occasion.

For a new suit sets you up. It makes your family pleased with you. It makes you a little more proud of yourself. It is good business for you in your job. It enhances your position in the community and among your associates as well as with strangers you meet for the first time.

Every so often this newspaper contributes advertising space as in this instance, to help merchants attract public attention more favorably to various important classifications of merchandise.

Much advertising by helping to stimulate the freer exchange of money from one hand to another improves the economy of this entire area and benefits each and every resident and reader of this newspaper.

A wide selection of men's and boys' clothes of exceptional values is available in the stores whose advertising is accepted for regular publication in this newspaper.

## The Weather

TUESDAY, OCT. 18, 1949  
Sun rises at 6:19 a. m.; sun sets at 5:11 p. m. E.S.T.  
Weather, cloudy.

The Temperature  
The lowest temperature recorded on The Freeman thermometer during the night was 48 degrees. The highest figure recorded up to noon today was 60 degrees.

Weather Forecast  
New York city and vicinity — Cloudy followed by occasional light rain, more drizzle today and tonight. Considerable cloudiness Wednesday with little change in temperature. High today 60 to 65. Low tonight 50 to 55. High Wednesday in mid-90s. Moderate to fresh northeasterly winds today becoming moderate northerly tonight and Wednesday.

Eastern New York — Some cloudiness with high around 65 today. Mostly fair over north and rather cloudy over south portion tonight and Wednesday. Little change in temperature.

Lowest Recorded Temperature  
The lowest temperature recorded on earth was 90 degrees below zero on Feb. 5 and 7, 1892, at Verkhovnsk, Siberia, U. S. Weather Bureau reports show.

## Surgeon Operates On Hearts in Novel One-Finger Way

By FRANK CAREY  
(A.P. Science Reporter)  
Chicago, Oct. 18 (AP)—Single-fingered surgery within the human heart—with the surgeon using a knife secured to his index finger and working by touch alone—was described today.

The American College of Surgeons was told the new technique still is on trial but so far is encouraging in the fight on a frequent disorder of the heart.

It is designed to combat a kind of top-jamming process involving the heart valve most vulnerable to the after-effects of rheumatic fever.

In the operation, the surgeon's finger explores and guides the knife through a single quadrant of the heart—an organ whose total size is about that of your doubled-up fist.

And the surgery itself is limited to the close quarters of the valvular gateway—the funnel-shaped "atrial valve"—linking the two chambers of the heart on the left side.

The operator inserts his knife-bearing finger through an incision in the wall of the heart—an opening only large enough to admit the finger. The opening is pre-equipped with a "purse string" suture—ready for quick closure when the surgeon withdraws his finger from the heart.

The surgeon wears two rubber gloves on his operating hand. An opening is made in the outer glove at the base of the index finger on the palm side of the hand; another opening is made at the tip. Then the knife blade is inserted between the gloves so that in effect, it is lashed to the index finger.

When the surgeon gets his finger inside the heart, he explores to determine diseased structures of the involved valve that need cutting. Then, by a turn of his

## Goshen Man Dies On Bay State Track

Foxboro, Mass., Oct. 18 (AP)—Francis C. La Croix, 49, of Goshen, N. Y., fell dead on the track at Bay State Raceway today while driving his harness horse on an exercise run.

La Croix was stricken apparently with heart disease after once rounding the track and then slumped and fell from the sulky onto the track. He was dead when medical aid arrived.

La Croix, formerly of Weymouth, Mass., was well known as an owner-driver at harness racing tracks. During recent years, he has lived on Glenmore road, Goshen, N. Y.

hand, he makes the necessary cuts. The mitral valve is located between the two chambers of the heart that receive the blood after it has been sent to the lungs to pick up oxygen. The valve controls transfer of the blood from the upper chamber to the lower; when it is pumped through the body. When the valve is constricted by disease, so that it can't open and close properly—like a well-regulated lock system—trouble develops.

The report on the new technique was made to the Clinical Congress of the Surgeons by Doctors Robert F. Glover, Thomas J. E. O'Neill and Charles Bailey of the Episcopal Hospital and the Hahnemann Medical College and Hospital, Philadelphia.

**Ulster Allocation  
Is 21 Carloads  
Of Local Apples**

Ulster county's allocation this month in the federal government's new apple purchase program will be 21 carloads, it was revealed at a meeting Monday night of the Apple Advisory Committee with the County Production and Marketing Committee.

Offers to sell apples were received from 32 county growers. These offers were presented to the county committee for consideration, after first being submitted to the six-man advisory committee. Each individual grower whose offer is approved will be notified of his allotment by mail.

Under the program as recently set up under the Production and Marketing Administration of the U. S. Department of Agriculture, the government will consider the purchase of fresh apples. Apples must meet requirements of U. S. Grade 1 or better, and the price will be \$1.70 per bushel in new bushel baskets or clean eastern apple boxes.

## Governor Blames Senatorial Election Upon Democrats

Rensselaer, N. Y., Oct. 18 (AP)—Governor Dewey accuses the Democrats of forcing a special election for U. S. Senator in New York this year in an attempt "to sneak off with a senatorship by default in an off year."

Dewey made the charge last night at a Republican rally in a speech urging the election Nov. 8 of Senator John Foster Dulles, the G.O.P. nominee.

The governor described Dulles as the leader of the group "the Communists fear" and as "the man they are trying to purge."

Dewey appointed Dulles to an interim Senate term last July after Democratic Senator Robert F. Wagner resigned. By resigning late in June, Wagner made necessary a special election to choose a senator to serve until Jan. 3, 1951. Dulles' interim term expires Dec. 1.

Dewey told about 400 persons at the G.O.P. rally that the Democrats had hoped "the people would stay home and they could sneak off with a senatorship by default in an off year."

He said the people of New York had, through the candidacy of Dulles, "the rare opportunity to

hire for the salary of a senator one of the greatest men the state ever produced."

Dewey added:  
"The issue is, will the people of New York state repudiate a man who is known in every capital of Europe as the symbol of the cause of freedom, or will they buttress that cause by giving him a vote of confidence?"

The governor said the Communists wanted to deliver against Dulles "the 430,000 votes they think they control."

Dulles is opposed by former Gov. Herbert H. Lehman, Democratic and Liberal party candidate.

Dewey said:  
"The American citizen is asking himself today what part he can play in avoiding a shooting war. He can elect to office the people the Communists fear, and the leader of that group is John Foster Dulles, the man they are trying to purge."

Dewey will speak tonight in Glens Falls at the annual dinner of the Chamber of Commerce (Queensbury Hotel). He currently is on his third successive week of stumping for Dulles.

**Asks Paternity Ruling**  
Los Angeles, Oct. 18 (AP)—In direct contrast to the usual paternity action, a G.I. student asks that he be declared the father of a baby boy born out of wedlock.

LeRoy Hedge, 21, in his complaint said that "for many and diverse reasons the plaintiff and the

defendant cannot be married."

The action named the mother of the child as Loretta Miller, 17, and said that the boy was born last Saturday. The complaint did not list the reasons why Hedge and Miss Miller could not be married and his attorney declined to divulge them. Hedge said that he be granted its custody.

**Navajos Bill Vetoed**  
Washington, Oct. 18 (AP)—President Truman has vetoed the \$88,570,000 Navajo-Hopi Indian aid bill. He acted into yesterday, influenced, he said, by the desires of the Navajos themselves and by the belief the measure contained "serious threats to the basic rights of these Indians."

But the President said the proposed legislation had really served its purpose. Its aims can be carried out under existing laws, he stated.

You see, we figure that our reputation rides in every Ford we sell... that a "well done" from a Ford owner beats anything a salesman could say.

So, we have a lot to gain by making you a satisfied customer from the start.

That's why we do our level best to give your Ford the finest possible care... using factory-proved methods... stocking Genuine Ford Parts... and keeping a staff of Ford-trained mechanics at your service.

It's our way of keeping Ford Out Front

**A KITCHEN THAT SMILES RIGHT BACK  
AT YOU AND YOUR BUDGET....**

Sparkling, new Curtis Kitchen Cabinets from the Schryver Lumber Co. Done up in style with loads of storage space for pots, pans, jellies and jams. Wouldn't it be swell to cook Thanksgiving dinner in a nice, up-to-date kitchen like this? Just dash to the phone and call 2900. We'll gladly advise you as to needs and costs.

All kinds of special mill work and stair work made at our factory. Big stock of Cedar Shingles.
